The following list of courses is arranged in alphabetical order by course prefix and in numerical order under the program of study. Following the title are numbers representing lecture, lab, clinical or work experience, and credit. When classes have pre- or co-requisite requirements, those are listed as well. Courses below the 100 level are considered developmental education courses and serve as prerequisites to curriculum study. Grades in all courses below the 100 level will not count as hours/credits earned and will not be used to calculate grade point averages. Courses below the 100 level are counted as hours attempted for financial aid and term course load purposes. Courses without clinical or work experience hours have three numbers listed, as in Example 1 below. Courses with clinical or work experience hours have four numbers listed, as in Example 2 below. The final sentence in some course descriptions indicates the potential transferability of the course, as in Example 3 below.

**EXAMPLE 1**

**PSY 118 Interpersonal Psychology**

This course introduces the basic principles of psychology as they relate to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development. S11025

**EXAMPLE 2**

**COE 111 Co-op Work Experience I**

This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. S11680

**EXAMPLE 3**

**ENG 111 Expository Writing**

Prerequisites: ENG 090 and RED 090 or ENG 095

This course is the required first course in a series of two designed to develop the ability to produce clear expository prose. Emphasis is placed on the writing process including audience analysis, topic selection, thesis support and development, editing, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in English Composition. S13673
### ACADEMIC RELATED (ACA)

Initial student placement in developmental courses is based on individual college placement testing policies and procedures. Students should begin developmental course work at the appropriate level indicated by the college’s placement test.

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>ACC 115</td>
<td>College Accounting</td>
<td>3 2 4</td>
</tr>
<tr>
<td></td>
<td>This course introduces basic accounting principles for a business. Topics include the complete accounting cycle with end-of-period statements, bank reconciliation, payrolls, and petty cash. Upon completion, students should be able to demonstrate an understanding of accounting principles and apply those skills to a business organization.</td>
<td></td>
</tr>
<tr>
<td>ACC 120</td>
<td>Principles of Financial Accounting</td>
<td>3 2 4</td>
</tr>
<tr>
<td></td>
<td>This course introduces business decision-making, accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making and address ethical considerations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.</td>
<td></td>
</tr>
<tr>
<td>ACC 121</td>
<td>Principles of Managerial Accounting</td>
<td>3 2 4</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: ACC 120</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course includes a greater emphasis on managerial and cost accounting skills. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts including product-costing systems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.</td>
<td></td>
</tr>
<tr>
<td>ACC 122</td>
<td>Principles of Financial Accounting II</td>
<td>3 0 3</td>
</tr>
<tr>
<td></td>
<td>Prerequisites: ACC 120</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course provides additional instruction in the financial accounting concepts and procedures introduced in ACC 120. Emphasis is placed on the analysis of specific balance sheet accounts, with in-depth instruction of the accounting principles applied to these accounts. Upon completion, students should be able to analyze data, prepare journal entries, and prepare reports in compliance with generally accepted accounting principles.</td>
<td></td>
</tr>
</tbody>
</table>
ACC 129  Individual Income Taxes  2 2 3
This course introduces the relevant laws governing individual income taxation. Topics include tax law, electronic research and methodologies, and the use of technology for preparation of individual tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various individual tax forms. S20283

ACC 130  Business Income Taxes  2 2 3
Prerequisites: ACC 129
This course introduces the relevant laws governing business and fiduciary income taxes. Topics include tax law relating to business organizations, electronic research and methodologies, and the use of technology for the preparation of business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various business tax forms. S20277

ACC 140  Payroll Accounting  1 2 2
Prerequisites: ACC 115 or ACC 120
This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology. S20281

ACC 150  Accounting Software Application  1 2 2
Prerequisites: ACC 115 or ACC 120
This course introduces microcomputer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting package to solve accounting problems. S20275

ACC 180  Practices in Bookkeeping  3 0 3
Prerequisites: ACC 120
This course provides advanced instruction in bookkeeping and record-keeping functions. Emphasis is placed on mastering adjusting entries, correction of errors, depreciation, payroll, and inventory. Upon completion, students should be able to conduct all key bookkeeping functions for small businesses. S20288

ACC 220  Intermediate Accounting I  3 2 4
Prerequisites: ACC 120
This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and an extensive analyses of financial statements. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards. S20836

ACC 221  Intermediate Accounting II  3 2 4
Prerequisites: ACC 220
This course is a continuation of ACC 220. Emphasis is placed on special problems which may include leases, bonds, investments, ratio analyses, present value applications, accounting changes, and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered. S10687

ACC 225  Cost Accounting  3 0 3
Prerequisites: ACC 121
This course introduces the nature and purposes of cost accounting as an information system for planning and control. Topics include direct materials, direct labor, factory overhead, process, job order, and standard cost systems. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered. S10695
## ANIMAL ASSISTED INTERACTIONS (AAI)

<tbody>
<tr>
<td>ANT 221</td>
<td>Comparative Cultures</td>
<td>3</td>
</tr>
<tr>
<td>This course provides an ethnographic survey of societies around the world covering their distinctive cultural characteristics and how these relate to cultural change. Emphasis is placed on the similarities and differences in social institutions such as family, economics, politics, education, and religion. Upon completion, students should be able to demonstrate knowledge of a variety of cultural adaptive strategies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
ANT 240  Archaeology  3  0  3
This course introduces the scientific study of the unwritten record of the human past. Emphasis is placed on the process of human cultural evolution as revealed through archaeological methods of excavation and interpretation. Upon completion, students should be able to demonstrate an understanding of how archaeologists reconstruct the past and describe the variety of past human cultures. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. S10965

ART (ART)

ART 111  Art Appreciation  3  0  3
This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms, including but not limited to, sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. S10139

ART 113  Art Methods and Materials  2  2  3
This course provides an overview of media and techniques. Emphasis is placed on exploration and manipulation of materials. Upon completion, students should be able to demonstrate familiarity with a variety of methods, materials, and processes. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S10113

ART 114  Art History Survey I  3  0  3
This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. S10200

ART 115  Art History Survey II  3  0  3
This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. S10149

ART 121  Design I  0  6  3
This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S12130

ART 131  Drawing I  0  6  3
This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S10812

ART 132  Drawing II  0  6  3
Prerequisites: ART 131
This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S10831
### Course Descriptions

#### ART 283  Ceramics I  
**0 6  3**

This course provides an introduction to three-dimensional design principles using the medium of clay. Emphasis is placed on fundamentals of forming, surface design, glaze application, and firing. Upon completion, students should be able to demonstrate skills in slab and coil construction, simple wheel forms, glaze technique, and creative expression. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S11998

<td></td>
<td></td>
</tr>
</tbody>
</table>
Course Descriptions

ATR 280  Robotic Fundamentals  3  2  4
This course covers application, programming, and maintenance fundamentals for robotic devices. Emphasis is placed on terminology, problem solving, robotic systems controls, and hands-on projects. Upon completion, students should be able to apply basic concepts in application, programming, and robotic control systems. S12171

ATR 282  Robotics and CIM  3  2  4
This course covers robotics and CIM. Topics include application, programming, and maintenance of robotic devices and the relationship between robotics and CIM. Upon completion, students should be able to safely program, operate, and maintain robots and understand the relationship between robotics and CIM. S20675

AUT 110  Introduction to Automotive Technology  2  2  3
This course covers workplace safety, hazardous material and environmental regulations, use of hand tools, service information resources, basic concepts, systems, and terms of automotive technology. Topics include familiarization with vehicle systems along with identification and proper use of various automotive hand and power tools. Upon completion, students should be able to describe safety and environmental procedures, terms associated with automobiles, identify and use basic tools and shop equipment. S21683

AUT 114  Safety and Emissions  1  2  2
This course covers the laws, procedures, and specifications needed to perform a North Carolina State Safety and Emissions inspection. Topics include brake, steering and suspension, lighting, horn, windshield wiper, tire, mirrors, and emission control devices inspection. Upon completion, students should be able to perform complete and thorough North Carolina State Safety and Emissions inspections. S21685

AUT 114A  Safety and Emissions Lab  0  2  1
Corequisites: AUT 114
This course is an optional lab that allows students to enhance their understanding of North Carolina State Emissions Inspection failures. Topics include evaporative, positive crankcase ventilation, exhaust gas recirculation and exhaust emissions systems operation, including catalytic converter failure diagnosis. Upon completion, students should be able to employ diagnostic strategies to repair vehicle emissions failures resulting from North Carolina State Emissions inspection. S21686

AUT 116  Engine Repair  2  3  3
This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information. S21687

AUT 116A  Engine Repair Lab  0  3  1
Corequisites: AUT 116
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information. S21688

AUT 123  Powertrain Diagnosis & Service  1  3  2
This course covers the diagnosis, repair and service of the vehicle powertrain and related systems. Topics include fundamental operating principles of engines and transmissions and use of proper service procedures for diagnosis, service and removal and replacement of major components. Upon completion, students should be able to perform basic service and diagnosis of the powertrain and related systems, and to perform in vehicle repairs and replace components. S21689

AUT 141  Suspension & Steering Systems  2  3  3
This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels. S21690
AUT 141A  Suspension & Steering Systems Lab  0  3  1  
Corequisites:  AUT 141  
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels. S21691

AUT 151  Brake Systems  2  3  3  
This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydra-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems. S21692

AUT 151A  Brake Systems Lab  0  3  1  
Corequisites:  AUT 151  
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydra-boost, electrically powered boost, and anti-lock, parking brake systems and emerging brake systems technologies. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems. S21693

AUT 161  Basic Automotive Electricity  4  3  5  
This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of batteries, starters, and alternators. Topics include Ohm’s Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns. S21697

AUT 163  Advanced Automotive Electricity  2  3  3  
Prerequisites:  AUT 161  
This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of electronics, lighting, gauges, horn, wiper, accessories, and body modules. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns. S21698

AUT 171  Auto Climate Control  2  4  4  
This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis/repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information. S21700

AUT 181  Engine Performance 1  2  3  3  
This course covers the introduction, theory of operation, and basic diagnostic procedures required to restore engine performance to vehicles equipped with complex engine control systems. Topics include an overview of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information. S21701

AUT 181A  Engine Performance 1 Lab  0  3  1  
Corequisites:  AUT 181  
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include overviews of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices and emerging engine performance technologies. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information. S21702

**BIO 161 Introduction to Human Biology**
This course provides a basic survey of human biology. Emphasis is placed on the basic structure and function of body systems and the medical terminology used to describe normal and pathological states. Upon completion, students should be able to demonstrate an understanding of normal anatomy and physiology and the appropriate use of medical terminology. S13523

**BIO 163 Basic Anatomy & Physiology**
This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S13508

**BIO 168 Anatomy and Physiology I**
Prerequisites: BIO 094 (Required for Nursing Program)
This course provides a comprehensive study of the anatomy and physiology of the human body. Topics include body organization, homeostasis, cytology, histology, and the integumentary, skeletal, muscular, and nervous systems and special senses. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S11555

**BIO 169 Anatomy and Physiology II**
Prerequisites: BIO 168
This course provides a continuation of the comprehensive study of the anatomy and physiology of the human body. Topics include the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems as well as metabolism, nutrition, acid-base balance, and fluid and electrolyte balance. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S11629

**BIO 173 Microbes in World Affairs**
Prerequisites: BIO 110 or BIO 111
This course provides an integrated and comprehensive study of the microbial world and its influence on global events and human affairs. Topics include plant and animal diseases caused by viral, bacterial, and fungal pathogens and their impacts on history, industrial microbiology, biotechnology, and microbial ecology. Upon completion, students should be able to demonstrate an understanding of the importance of microbes in human and world affairs. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. S12302

**BIO 175 General Microbiology**
Prerequisites: BIO 110, BIO 111, or BIO 168
This course covers principles of microbiology with emphasis on microorganisms and human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Upon completion, students should be able to demonstrate knowledge of microorganisms and the disease process as well as aseptic and sterile techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S20491

**BIO 224 Local Flora Spring**
This course provides an introduction to the identification of native plants. Emphasis is placed on spring wild flowers. Upon completion, students should be able to identify a variety of spring wild flowers and native plants. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. S14262

**BIO 225 Local Flora Summer**
This course provides an introduction to the identification of native plants. Emphasis is placed on summer wild flowers. Upon completion, students should be able to identify a variety of summer wild flowers and native plants. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. S14233

| BIO 243     | Marine Biology               | 3     | 3     | 4     |
|             | Prerequisites: BIO 110 or BIO 111  
This course covers the physical and biological components of the marine environment. Topics include major habitats, the diversity of organisms, their biology and ecology, marine productivity, and the use of marine resources by humans. Upon completion, students should be able to identify various marine habitats and organisms and to demonstrate a knowledge of their biology and ecology. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S13534 |
| BIO 271     | Pathophysiology              | 3     | 0     | 3     |
|             | Prerequisites: BIO 163, BIO 166, or BIO 169  
This course provides an in-depth study of human pathological processes and their effects on homeostasis. Emphasis is placed on interrelationships among organ systems in deviations from homeostasis. Upon completion, students should be able to demonstrate a detailed knowledge of pathophysiology. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S13002 |
| BIO 273     | Radiation Biology            | 2     | 0     | 2     |
|             | Prerequisites: BIO 163, BIO 166, or BIO 169  
This course covers the principles of radiation biology. Emphasis is placed on the effects of ionizing radiation on body tissues, uses of radiation in medicine, and protective measures. Upon completion, students should be able to demonstrate an understanding of the effects and uses of radiation in diagnostic and therapeutic modalities. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. S13007 |

</tr>
</tbody>
</table>
### Course Descriptions

**BUS 245  Entrepreneurship II**  
**Prerequisites:** BUS 139  
This course is designed to allow the student to develop a business plan. Topics include the need for a business plan, sections of the plan, writing the plan, and how to find assistance in preparing the plan. Upon completion, students should be able to design and implement a business plan based on sound entrepreneurship principles.  
S21146

**BUS 260  Business Communications**  
**Prerequisites:** ENG 111  
This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the work place.  
S13810

**CHEMISTRY (CHM)**

**Initial student placement in developmental courses is based on individual college placement testing policies and procedures. Students should begin developmental course work at the appropriate level indicated by the college's placement test.**

**CHM 90  Chemistry Concepts**  
**Prerequisites:** MAT 070  
This course provides a non-laboratory based introduction to basic concepts of chemistry. Topics include measurements, matter, energy, atomic theory, bonding, molecular structure, nomenclature, balancing equations, stoichiometry, solutions, acids and bases, gases, and basic organic chemistry. Upon completion, students should be able to understand and apply basic chemical concepts necessary for success in college-level science courses.  
S13027

**CHM 131  Introduction to Chemistry**  
**Prerequisites:** MAT 070  
This course introduces the fundamental concepts of inorganic chemistry. Topics include measurement, matter and energy, atomic and molecular structure, nuclear chemistry, stoichiometry, chemical formulas and reactions, chemical bonding, gas laws, solutions, and acids and bases. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science.  
S12692

**CHM 131A  Introduction to Chemistry Lab**  
**Prerequisites:** MAT 070  
**Corequisites:** CHM 131  
This course is a laboratory to accompany CHM 131. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 131. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 131. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science.  
S12403

**CHM 132  Organic and Biochemistry**  
**Prerequisites:** CHM 131 and CHM 131A or CHM 151  
This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science.  
S20394

**CHM 135  Survey of Chemistry I**  
**Prerequisites:** CHM 131 and CHM 131A or CHM 151  
This course provides an introduction to inorganic chemistry. Emphasis is placed on measurement, atomic structure, bonding, molecular geometry, nomenclature, reactions, the mole concept, stoichiometric calculations, states of matter, and the gas laws. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science.  
S12720
CHM 136  Survey of Chemistry II  
**Prerequisites:** CHM 135  
This course is a continuation of CHM 135 with further study of inorganic reactions and an introduction to organic, biological, and nuclear chemistry. Topics include solutions, acid-base theory, redox reactions, chemical kinetics, organic chemistry, biochemistry, and nuclear chemistry. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science.  

CHM 151  General Chemistry I  
**Prerequisites:** MAT 070  
This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science.  

CHM 152  General Chemistry II  
**Prerequisites:** CHM 151  
This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science.  

**COMPUTER INFORMATION SYSTEMS (CIS)**

CIS 70  Fundamentals of Computing  
This course covers fundamental functions and operations of the computer. Topics include identification of components, overview of operating systems, and other basic computer operations. Upon completion, students should be able to operate computers, access files, print documents and perform basic applications operations.  

CIS 110  Introduction to Computers  
**Prerequisites:** CIS 070  
This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Mathematics (Quantitative).  

CIS 111  Basic PC Literacy  
**Prerequisites:** CIS 070  
This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills.  

CIS 115  Introduction to Programming & Logic  
**Prerequisites:** MAT 070, MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, or MAT 175  
This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Mathematics (Quantitative).
CIS 126 Graphics Software Introduction  2 2 3
This course provides an introduction to graphic design and execution of pictorial graphics using a variety of software packages. Emphasis is placed on creation and manipulation of images using graphic design software. Upon completion, students should be able to create graphic designs and incorporate these designs into printed publications. S10029

CIS 165 Desktop Publishing I  2 2 3
This course provides an introduction to desktop publishing software capabilities. Emphasis is placed on efficient use of a page layout software package to create, design, and print publications; hardware/software compatibility; and integration of specialized peripherals. Upon completion, students should be able to prepare publications given design specifications. S10453

CRIMINAL JUSTICE (CJC)

CJC 111 Introduction to Criminal Justice  3 0 3
This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S10631

CJC 112 Criminology  3 0 3
This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response. S10598

CJC 113 Juvenile Justice  3 0 3
This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition. S10602

CJC 114 Investigative Photography  1 2 2
This course covers the operation of digital photographic equipment and its application to criminal justice. Topics include the use of digital cameras, storage of digital images, the retrieval of digital images and preparation of digital images as evidence. Upon completion, students should be able to demonstrate and explain the role and use of digital photography, image storage and retrieval in criminal investigations. S20900

CJC 120 Interviews/Interrogations  1 2 2
This course covers basic and special techniques employed in criminal justice interviews and interrogations. Emphasis is placed on the interview/interrogation process, including interpretation of verbal and physical behavior and legal perspectives. Upon completion, students should be able to conduct interviews/interrogations in a legal, efficient, and professional manner and obtain the truth from suspects, witnesses, and victims. S11674

CJC 121 Law Enforcement Operations  3 0 3
This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S11746

CJC 122 Community Policing  3 0 3
This course covers the historical, philosophical, and practical dimensions of community policing. Emphasis is placed on the empowerment of police and the community to find solutions to problems by forming partnerships. Upon completion, students should be able to define community policing, describe how community policing strategies solve problems, and compare community policing to traditional policing. S11648
CJC 131  Criminal Law  3 0 3
This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements. S11110

CJC 132  Court Procedure & Evidence  3 0 3
This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence. S11046

CJC 141  Corrections  3 0 3
This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S12643

CJC 212  Ethics & Community Relations  3 0 3
This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations. S10970

CJC 213  Substance Abuse  3 0 3
This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities. S10983

CJC 214  Victimology  3 0 3
This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims' roles, and current victim assistance programs. S10951

CJC 215  Organization & Administration  3 0 3
This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations. S11008

CJC 221  Investigative Principles  3 2 4
This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation. S12498

CJC 222  Criminalistics  3 0 3
This course covers the functions of the forensic laboratory and its relationship to successful criminal investigations and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence. S12396
### Course Descriptions

**CJC 223  Organized Crime**  
This course introduces the evolution of traditional and non-traditional organized crime and its effect on society and the criminal justice system. Topics include identifying individuals and groups involved in organized crime, areas of criminal activity, legal and political responses to organized crime, and other related topics. Upon completion, students should be able to identify the groups and activities involved in organized crime and the responses of the criminal justice system. S12507

**CJC 225  Crisis Intervention**  
This course introduces critical incident intervention and management techniques as they apply to operational criminal justice practitioners. Emphasis is placed on the victim/offender situation as well as job-related high stress, dangerous or problem-solving citizen contacts. Upon completion, students should be able to provide insightful analysis of emotional, violent, drug-induced, and other critical and/or stressful incidents that require field analysis and/or resolution. S12466

**CJC 231  Constitutional Law**  
The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts. S10090

**CJC 232  Civil Liability**  
This course covers liability issues for the criminal justice professional. Topics include civil rights violations, tort liability, employment issues, and other related topics. Upon completion, students should be able to explain civil trial procedures and discuss contemporary liability issues. S10037

**CJC 241  Community-Based Corrections**  
This course covers programs for convicted offenders that are used both as alternatives to incarceration and in post-incarceration situations. Topics include offenders, diversion, house arrest, restitution, community service, probation and parole, including both public and private participation, and other related topics. Upon completion, students should be able to identify/discuss the various programs from the perspective of the criminal justice professional, the offender, and the community. S12261

### COOPERATIVE EDUCATION (COE)

**COE 111  Co-op Work Experience I**  
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. S11680

### COMMUNICATION (COM)

**COM 110  Introduction to Communication**  
Prerequisites: ENG 111
This course provides an overview of the basic concepts of communication and the skills necessary to communicate in various contexts. Emphasis is placed on communication theories and techniques used in interpersonal group, public, intercultural, and mass communication situations. Upon completion, students should be able to explain and illustrate the forms and purposes of human communication in a variety of contexts. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts (Substitute). S13264

**COM 120  Introduction to Interpersonal Communication**  
This course introduces the practices and principles of interpersonal communication in both dyadic and group settings. Emphasis is placed on the communication process, perception, listening, self-disclosure, speech apprehension, ethics, nonverbal communication, conflict, power, and dysfunctional communication relationships. Upon completion, students should be able to demonstrate interpersonal communication skills, apply basic principles of group discussion, and manage conflict in interpersonal communication situations. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts (Substitute). S13264
COM 130  Nonverbal Communication  3  0  3
Prerequisites: COM 110 or COM 120
This course introduces the contemporary study of nonverbal communication in daily life. Topics include haptics, kinesics, proxemics, facial displays, and appearance. Upon completion, students should be able to analyze/interpret nonverbal communication and demonstrate greater awareness of their own nonverbal communication habits. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S22359

COM 140  Introduction Intercultural Communication  3  0  3
This course introduces techniques of cultural research, definitions, functions, characteristics, and impacts of cultural differences in public address. Emphasis is placed on how diverse backgrounds influence the communication act and how cultural perceptions and experiences determine how one sends and receives messages. Upon completion, students should be able to demonstrate an understanding of the principles and skills needed to become effective in communicating outside one's primary culture. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts (Substitute). S22118

COM 150  Introduction to Mass Communication  3  0  3
Prerequisites: ENG 111
This course introduces print and electronic media and the new information technologies in terms of communication theory and as economic, political, and social institutions. Topics include the nature, history, functions, and responsibilities of mass communication industries in a global environment and their role and impact in American society. Upon completion, students should be able to demonstrate awareness of the pervasive nature of mass media and how media operate in an advanced post-industrial society. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. S22466

COM 160  Small Group Communication  3  0  3
This course provides an overview of the theory, practice, and critical analysis of communication in the small group setting. Emphasis is placed on group development, conflict, and conformity; leadership skills and styles; group roles and ranks; and decision making, problem solving, and conflict resolution. Upon completion, students should be able to apply topics of gender, culture, and social-emotional functions within group settings. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S21739

COM 231  Public Speaking  3  0  3
Prerequisites: ENG 111
This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to prepare and deliver well-organized speeches and participate in group discussion with appropriate audiovisual support. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts (Substitute). S12601

COM 233  Persuasive Speaking  3  0  3
Prerequisites: ENG 112 or ENG 113
This course introduces theory and history of persuasive speaking, covering critical thinking skills in analyzing problems, assessing solutions, and communicating the information to an audience. Emphasis is placed on analysis, evidence, reasoning, and library and field research used to enhance persuasive public speaking skills. Upon completion, students should be able to apply the principles of persuasive speaking in a public setting. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S12535

COM 251  Debate I  3  0  3
This course introduces the principles of debate. Emphasis is placed on argument, refutation, research, and logic. Upon completion, students should be able to use research skills and logic in the presentation of ideas within the context of formal debate. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S12166

Course Descriptions

COS 273  Instructor Concepts II  5  0  5
Prerequisites: COS 271 and COS 272
Corequisites: COS 274
This course covers advanced cosmetology instructional concepts. Topics include practical demonstrations, lesson planning, lecture techniques, development and administration of assessment tools, record keeping, and other related topics. Upon completion, students should be able to develop lesson plans, demonstrate supervision techniques, assess student performance in a classroom setting, and keep accurate records. S11965

COS 274  Instructor Practicum II  0  21  7
Prerequisites: COS 271 and COS 272
Corequisites: COS 273
This course is designed to develop supervisory and instructional skills for teaching advanced cosmetology students in a laboratory setting. Topics include practical demonstrations, supervision, and advanced student assessment. Upon completion, students should be able to demonstrate competence in the areas covered by the Instructor Licensing Examination and meet program completion requirements. This is a certificate-level course. S12083

CUSTOMER SERVICE TECHNOLOGY (CSV)

CSV 110  Introduction to Customer Service  3  0  3
This course introduces the fundamentals of customer service technology. Topics include retail sales, order entry, credit, collection, authorization services, and fraud control. Upon completion, students should be able to exhibit an extensive vocabulary of customer service terminology and be prepared for advanced study in customer service technology. S14181

CSV 210  Advanced Customer Service  3  0  3
This course focuses on improving communication and negotiation skills within a customer service environment. Emphasis is placed on working in fast-paced operations where speed and accuracy are important. Upon completion, students should be able to respond to complex customer requirements and efficiently handle stressful situations. S13537

CSV 220  Consumer Credit  3  0  3
This course introduces the techniques and regulatory requirements of installment lending. Emphasis is placed on establishing credit, obtaining and checking credit information, servicing loans, and collecting amounts due. Upon completion, students should be able to demonstrate knowledge of the consumer lending process from application through closing and collection. S12161

CSV 221  Letters of Credit  3  0  3
This course introduces the use of letters of credit and the examination of related documents. Topics include shipping documents, mechanics of the letter of credit, payment and reimbursement, and document examination. Upon completion, students should be able to demonstrate knowledge of the documents required, processes included, and closing procedures for letters of credit. S12192

COMPUTER SCIENCE (CSC)

CSC 134  C++ Programming  2  3  3
This course introduces computer programming using the C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. S21066

CSC 139  Visual BASIC Programming  2  3  3
This course introduces computer programming using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S21071
**CSC 151  JAVA Programming**  
This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S21076

**COMPUTER INFORMATION TECHNOLOGY (CTS)**

*Initial student placement in developmental courses is based on individual college placement testing policies and procedures. Students should begin developmental course work at the appropriate level indicated by the college’s placement test.*

**CTS 80  Computing Fundamentals**  
This course covers fundamental functions and operations of the computer. Topics include identification of components and basic computer operations including introduction to operating systems, the Internet, web browsers, and communication using World Wide Web. Upon completion, students should be able to operate computers, access files, print documents and perform basic applications operations. S20994

**CTS 112  Windows**  
This course includes the fundamentals of the Windows software. Topics include graphical user interface, icons, directories, file management, accessories, and other applications. Upon completion, students should be able to use Windows software in an office environment. S20995

**CTS 115  Information Systems Business Concept**  
The course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the ‘hybrid business manager’ and the potential offered by new technology and systems. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S20996

**CTS 118  IS Professional Communication**  
This course prepares the information systems professional to communicate with corporate personnel from management to end-users. Topics include information systems cost justification tools, awareness of personal hierarchy of needs, addressing these needs, and discussing technical issues with non-technical personnel. Upon completion, students should be able to communicate information systems issues to technical and non-technical personnel. S20997

**CTS 120  Hardware/Software Support**  
Prerequisites: CIS 110 or CIS 111  
This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers. S20998

**CTS 125  Presentation Graphics**  
Prerequisites: CIS 110 or CIS 111  
This course provides hands-on experience with a graphics presentation package. Topics include terminology, effective chart usage, design and layout, integrating hardware components, and enhancing presentations with text, graphics, audio and video. Upon completion, students should be able to design and demonstrate an effective presentation. S20999

**CTS 130  Spreadsheet**  
Prerequisites: CIS 110 or CIS 111 or OST 137  
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts. S21000

Course Descriptions

CTS 255  Advanced Tech Support Functions  2 2 3
Prerequisites: CTS 155
This course introduces a variety of diagnostic and instructional tools that are used to evaluate the performance of technical support technologies. Topics include technical support management techniques, evaluation, and methods of deployment for technical support technologies. Upon completion, students should be able to determine the best technologies to support and solve more complex technical support problems. S21010

CTS 270  Essentials of System Performance  2 2 3
Prerequisites: CTS 255
This course introduces performance factors that affect the reliability and performance of networks. Topics include service-oriented indicators such as availability, response time, and accuracy, as well as efficiency-oriented indicators including throughput and utilization. Upon completion, students should be able to estimate how the limitations of network components affect the overall performance of a network. S21011

CTS 285  Systems Analysis & Design  3 0 3
Prerequisites: CIS 115
This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques. S21012

CTS 286  Network Support  2 2 3
Prerequisites: NOS 230 or NOS 231
This course provides experience using CD ROM and on-line research tools and hands-on experience for advanced hardware support and troubleshooting. Emphasis is placed on troubleshooting network adapter cards and cabling, network storage devices, the DOS workstation, and network printing. Upon completion, students should be able to analyze, diagnose, research, and fix network hardware problems. S21013

CTS 287  Emerging Technologies  3 0 3
This course introduces emerging information technologies. Emphasis is placed on evolving technologies and trends in business and industry. Upon completion, students should be able to articulate an understanding of the current trends and issues in emerging technologies for information systems. S21014

CTS 288  Professional Practices in IT  2 2 3
This course provides students with the business skills needed for success in the information technology field. Topics include portfolio development, resume design, interviewing techniques and professional practices. Upon completion, students should be able to present themselves and their work in the information technology field in a professional manner. S20944

CTS 289  System Support Project  1 4 3
Prerequisites: CTS 285
This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation. S21015

DATABASE MANAGEMENT TECHNOLOGY (DBA)

DBA 110  Database Concepts  2 3 3
Prerequisites: CIS 070
This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms. S21017

DBA 112  Database Utilization  2 2 3
Prerequisites: CIS 110 or CIS 111 or OST 137
This course introduces basic database functions and uses. Emphasis is placed on database manipulation with queries, reports, forms, and some table creation. Upon completion, students should be able to enter and manipulate data from the end user mode. S21018
DBA 115  Database Applications  
Prerequisites: DBA 110  
This course applies concepts learned in DBA 110 to a specific DBMS. Topics include manipulating multiple tables, advanced queries, screens and reports, linking, and command files. Upon completion, students should be able to create multiple table systems that demonstrate updates, screens, and reports representative of industry requirements. S21019

DBA 120  Database Programming I  
This course is designed to develop SQL programming proficiency. Emphasis is placed on data definition, data manipulation, and data control statements as well as on report generation. Upon completion, students should be able to write programs which create, update, and produce reports. S21020

DBA 210  Database Administration  
This course covers database administration issues and distributed database concepts. Topics include: database administrator (DBA) goals and functions, backup and recovery, standards and procedures, training, and database security and performance evaluations. Upon completion, students should be able to produce functional DBA documentation and administer a database. S21021

DBA 220  Oracle DB Programming II  
Prerequisites: DBA 120  
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop an Oracle DBMS application which includes a GUI front-end and report generation. S21022

DBA 221  SQL Server DB Programming II  
Prerequisites: DBA 120  
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop a SQL Server DBMS application which includes a GUI front-end and report generation. S21023

DBA 222  DB2 DB Programming II  
Prerequisites: DBA 120  
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop a DB2 DBMS application which includes a GUI front-end and report generation. S21024

DBA 223  MySQL DB Programming II  
Prerequisites: DBA 120  
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop a MySQL DBMS application which includes a GUI front-end and report generation. S21025

DBA 224  SAS DB Programming II  
Prerequisites: DBA 120  
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop a SAS DBMS application which includes a GUI front-end and report generation. S21026

DBA 230  Database in Corporate Environments  
This course covers database systems as they relate to the corporate environment. Topics include knowledge-based, decision-support, and expert systems; database choices; data warehousing; and corporate structure. Upon completion, students should be able to analyze and recommend database systems needed by a corporation. S21028

DBA 240  Database Analysis/Design  
This course is an exploration of the established and evolving methodologies for the analysis, design, and development of a database system. Emphasis is placed on business data characteristics and usage, managing database projects, prototyping and modeling, and CASE tools. Upon completion, students should be able to analyze, develop, and validate a database implementation plan. S21029
DBA 260  Oracle DBMS Administration  2  2  3
This course examines advanced Oracle database administration issues and distributed database concepts. Topics include backup and recovery, transporting of data between databases, database networking concepts, and resolution of database networking issues. Upon completion, students should be able to manage backup recovery and implement networked database solutions. S21030

DBA 261  SQL Server DBMS Administration  2  2  3
This course examines advanced SQL Server database administration issues and distributed database concepts. Topics include backup and recovery, transporting of data between databases, database networking concepts, and resolution of database networking issues. Upon completion, students should be able to manage backup recovery and implement networked database solutions. S21031

DBA 262  DB2 DBMS Administration  2  2  3
This course examines advanced DB2 database administration issues and distributed database concepts. Topics include backup and recovery, transporting of data between databases, database networking concepts, and resolution of database networking issues. Upon completion, students should be able to manage backup recovery and implement networked database solutions. S21032

DBA 263  MySQL DBMS Administration  2  2  3
This course examines advanced MySQL database administration issues and distributed database concepts. Topics include backup and recovery, transporting of data between databases, database networking concepts, and resolution of database networking issues. Upon completion, students should be able to manage backup recovery and implement networked database solutions. S21033

DBA 264  SAS DBMS Administration  2  2  3
This course examines advanced SAS database administration issues and distributed database concepts. Topics include backup and recovery, transporting of data between databases, database networking concepts, and resolution of database networking issues. Upon completion, students should be able to manage backup recovery and implement networked database solutions. S21034

DBA 270  Oracle Performance Tuning  2  2  3
Prerequisites: NOS 130
This course covers Oracle performance tuning concepts and techniques. Topics include database tuning and Oracle performance tools. Upon completion, students should be able to configure and diagnose an Oracle database for optimal performance. S21036

DBA 271  SQL Server Performance Tuning  2  2  3
Prerequisites: NOS 130
This course covers SQL Server performance tuning concepts and techniques. Topics include database tuning and SQL Server performance tools. Upon completion, students should be able to configure and diagnose an SQL Server database for optimal performance. S21038

DBA 272  DB2 Performance Tuning  2  2  3
Prerequisites: NOS 130
This course covers DB2 performance tuning concepts and techniques. Topics include database tuning and DB2 performance tools. Upon completion, students should be able to configure and diagnose a DB2 database for optimal performance. S21039

DBA 273  MySQL Performance Tuning  2  2  3
Prerequisites: NOS 130
This course covers MySQL performance tuning concepts and techniques. Topics include database tuning and MySQL performance tools. Upon completion, students should be able to configure and diagnose a MySQL database for optimal performance. S21041

DBA 274  SAS Performance Tuning  2  2  3
Prerequisites: NOS 130
This course covers SAS performance tuning concepts and techniques. Topics include database tuning and SAS performance tools. Upon completion, students should be able to configure and diagnose a SAS database for optimal performance. S21042
DBA 285  Data Warehousing & Mining  
Prerequisites: NOS 130  
This course introduces data warehousing and data mining techniques. Emphasis is placed on data warehouse design, data transference, data cleansing, retrieval algorithms, and mining techniques. Upon completion, students should be able to create, populate, and mine a data warehouse. S21043

DBA 289  Database Project  
Prerequisites: DBA 240 & DBA 120  
This course provides an opportunity to complete a significant database systems project with minimal instructor support. Emphasis is placed on written and verbal communication skills, documentation, presentation, and user training. Upon completion, students should be able to present an operational database system which they have created. S21044

DRAFTING (DFT)

DFT 170  Engineering Graphics  
This course introduces basic engineering graphics skills and applications. Topics include sketching, selection and use of current methods and tools, and the use of engineering graphics applications. Upon completion, students should be able to demonstrate an understanding of basic engineering graphics principles and practices. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S20734

DEVELOPMENTAL MATHEMATICS (DMA)

DMA 010  Operations With Integers  
This course provides a conceptual study of integers and integer operations. Topics include integers, absolute value, exponents, square roots, perimeter and area of basic geometric figures, Pythagorean theorem, and use of the correct order of operations. Upon completion, students should be able to demonstrate an understanding of pertinent concepts and principles and apply this knowledge in the evaluation of expressions.
Competencies: · Visually represent an integer and its opposite on the number line · Explain the concept of the absolute value of an integer · Demonstrate the conceptual understanding of operations with integers to solve application problems · Correctly apply commutative and associative properties to integer operations · Apply the proper use of exponents and calculate the principal square root of perfect squares · Simplify multi-step expressions using the rules for order of operations · Solve geometric application problems involving area and perimeter of rectangles and triangles, angles, and correctly apply the Pythagorean theorem S23164

DMA 020  Fractions and Decimals  
Prerequisites: DMA 010  
This course provides a conceptual study of the relationship between fractions and decimals and covers related problems. Topics include application of operations and solving contextual application problems, including determining the circumference and area of circles with the concept of pi. Upon completion, students should be able to demonstrate an understanding of the connections between fractions and decimals.
Competencies: · Solve contextual application problems involving operations with fractions and decimals · Visually represent fractions and their decimal equivalents · Simplify fractions · Find the lowest common denominator of two fractions · Correctly perform arithmetic operations on fractions · Explain the relationship between a number and its reciprocal · Correctly order fractions and decimals on a number line · Convert decimals between standard notation and word form · Round decimals to a specific place value · Estimate sums, differences, products, and quotients with decimals · Demonstrate an understanding of the connection between fractions and decimals · Convert between standard notation and scientific notation · Solve geometric applications involving the circumference and area of circles S23168

DMA 030  Proportions, Ratio, Rate and Percent  
Prerequisites: DMA 010 and DMA 020  
This course provides a conceptual study of the problems that are represented by rates, ratios, percent, and proportions. Topics include rates, ratios, percent, proportion, conversion of English and metric units, and applications of the geometry of similar triangles. Upon completion, students should be able to use their understanding to solve conceptual application problems. Competencies: · Apply the concepts of ratio, rates, proportions, and percents to application problems · Recognize and choose the correct units in application problems using ratios, rates, and proportions · Calculate a unit rate · Convert measurements within and between the U.S. customary and metric system using unit analysis · Compare percents, decimals, and fractions · Apply the concepts of part, whole, and percent to solve contextual applications S23169
Course Descriptions

DMA 040   Expressions, Linear Equations and Inequalities   .75   .50   1
Prerequisites:   Take One Set: Set 1: DMA 010, DMA 020 and DMA 030 Set 2: MAT 060
This course provides a conceptual study of problems involving linear expressions, equations, and inequalities. Emphasis is placed on solving contextual application problems. Upon completion, students should be able to distinguish between simplifying expressions and solving equations and apply this knowledge to problems involving linear expressions, equations, and inequalities.
Competencies:   ·Differentiate between expressions, equations, and inequalities ·Simplify and evaluate, when appropriate, expressions, equations, and inequalities ·Effectively apply algebraic properties of equality ·Correctly represent the solution to an inequality on the number line ·Represent the structure of application problems pictorially and algebraically ·Apply effective problem solving strategies to contextual application problems ·Demonstrate conceptual knowledge by modeling and solving applications using linear equations and inequalities S23170

DMA 050   Graphs and Equations of Lines   .75   .50   1
Prerequisites:   Take One Set: Set 1: DMA-010, DMA-020, DMA-030 and DMA-040 Set 2: DMA-040 and MAT-060
This course provides a conceptual study of problems involving graphic and algebraic representations of lines. Topics include slope, equations of lines, interpretation of basic graphs, and linear modeling. Upon completion, students should be able to solve contextual application problems and represent real-world situations as linear equations in two variables. Competencies:   ·Read and interpret basic graphs to solve problems ·Apply the concept of slope as a rate of change in real-world situations ·Write and graph linear equations in two variables to model real-world situations ·Represent real-world situations as linear equations in two variables in tabular form, graphically, and algebraically S23171

DMA 060   Polynomial and Quadratic Applications   .75   .50   1
Prerequisites:   Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040 and DMA-050 Set 2: DMA-040, DMA-050, and MAT-060 Set 3: MAT-060 and MAT-070
This course provides a conceptual study of problems involving graphic and algebraic representations of quadratics. Topics include basic polynomial operations, factoring polynomials, and solving polynomial equations by means of factoring. Upon completion, students should be able to find algebraic solutions to contextual problems with quadratic applications. Competencies:   ·Represent real-world applications as quadratic equations in tabular, graphic, and algebraic forms ·Apply exponent rules ·Solve application problems involving polynomial operations ·Apply the principles of factoring when solving problems ·Represent contextual applications using function notation ·Analyze graphs of quadratic functions to solve problems S23172

DMA 070   Rational Expressions and Equations   .75   .50   1
Prerequisites:   Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050 and DMA-060 Set 2: DMA-040, DMA-050, DMA-060, and MAT-060 Set 3: DMA-060, MAT-060, and MAT-070 Set 4: DMA-010, DMA-020, DMA-030, DMA-060, AND MAT-070
This course provides a conceptual study of problems involving graphic and algebraic representations of rational expressions. Topics include simplifying and performing operations with rational expressions and equations, understanding the domain, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with rational applications.
Competencies:   ·Solve contextual application problems involving operations on rational expressions and/or equations ·Represent real-world situations as rational equations and graphically using a graphing calculator ·Analyze the meaning of asymptotes using a graphing calculator ·Explain the reasonableness of solutions found S23173

DMA 080   Radical Expressions and Equations   .75   .50   1
Prerequisites:   Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, DMA-060 and DMA-070 Set 2: DMA-060, DMA-070, MAT-060, and MAT-070 Set 3: DMA-040, DMA-050, DMA-060, DMA-070, and MAT-060 Set 4: DMA-010, DMA-020, DMA-030, DMA-060, DMA-070, and MAT-070
This course provides a conceptual study of the manipulation of radicals and the application of radical equations to real-world problems. Topics include simplifying and performing operations with radical expressions and rational exponents, solving equations, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with radical applications.
Competencies:   ·Solve contextual application problems involving operations on radical expressions and/or equations ·Represent real world situations as radical equations and graphically using a graphing calculator ·Explain the reasonableness of solutions found ·Correctly perform operations with radical expressions ·Use a graphing calculator to analyze radical functions S23174
DME 110  Introduction to Digital Media
This course introduces students to key concepts, technologies, and issues related to digital media. Topics include emerging standards, key technologies and related design issues, terminology, media formats, career paths, and ethical issues. Upon completion, students should be able to demonstrate the various media formats that are used in digital media technology. S20550

DME 115  Graphic Design Tools
This course provides students with an introduction to creative expression and art/design techniques in a digital environment. Emphasis is placed on designing, creating, editing and integrating visual components consisting of bit-mapped and vector-based images, drawings, banners, text, simple animations, and multiple layers. Upon completion, students should be able to design and produce a range of visual products using digital processing techniques. S20551

DME 120  Introduction to Multimedia Application
Prerequisites: DME 110
This course introduces storyboarding and multimedia application design. Topics include vector and bit-mapped graphics, interactive multimedia interfaces, layering techniques, image and animation libraries, and scripting. Upon completion, students should be able to produce basic high-quality interactive multimedia applications. S20552

DME 130  Digital Animation I
Prerequisites: DME 110
This course introduces concepts for planning and developing animation sequences. Emphasis will be placed on review of digital animation concepts and exploration of various animation software packages. Upon completion, students should be able to produce simple animations. S20553

DME 140  Introduction to Audio/Video Media
Prerequisites: DME 110
This course is designed to teach students how to manipulate digital and audio content for multimedia applications. Topics include format conversion and a review of current technologies and digital formats. Upon completion, students should be able to modify existing audio and video content to meet a range of production requirements associated with digital media applications. S20554

DME 210  User Interface Design
Prerequisites: DME 110
This course covers current design approaches and emerging standards related to the design and development of user interfaces. Emphasis is placed on conducting research, and analyzing and reviewing current practices in effective interface design. Upon completion, students should be able to intelligently discuss and evaluate new and existing digital media products in terms of the user interface. S20555

DME 220  Interactive Multi-Media Programming
Prerequisites: DME 120
This course is designed to build on concepts developed in DME 120 and teaches students to apply custom programming to develop advanced applications and components. Emphasis is placed on scripting language functionalities associated with a variety of software packages. Upon completion, students should be able to produce advanced, high-quality interactive multimedia applications. S20556

DME 230  Digital Animation II
Prerequisites: DME 130
This course introduces state-of-the-art 3D animation techniques and concepts. Emphasis is placed on utilizing the features of current animation software. Upon completion, students should be able to produce 3D animations as components of a multimedia application. S20557

DME 240  Media Compression
Prerequisites: DME 110 and DME 140
This course introduces software and usage of digital audio and video compression and streaming media technologies. Topics include compression techniques, file formats and Codecs, streaming media, streaming media services, and current and emerging trends. Upon completion, students should be able to utilize compressed media in a variety of video, web and multimedia applications. S21735
Course Descriptions

DME 260  Emerging Technology in Digital Media  
Prerequisites: DME 120 and DME 130  
This course provides students with the latest technologies and strategies in the field of digital media. Emphasis is placed on the evaluation of emerging digital media technologies and presenting those findings to the class. Upon completion, students should be able to critically analyze emerging digital media technologies and establish informed opinions. S20558

DME 270  Professional Practices in Digital Media  
Prerequisites: DME 120 and DME 130  
This course introduces students to business skills needed to succeed in the digital media workplace. Topics include portfolio development, resume design, and preparation of media contacts. Upon completion, students should be able to prepare themselves and their work for a career in the digital media workplace. S20559

DME 285  Systems Projects  
Prerequisites: DME 120 and DME 130  
This course provides an opportunity to complete a significant digital media project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete, maintain and implement a digital media project. S20560

DRA 111  Theatre Appreciation  
This course provides a study of the art, craft, and business of the theatre. Emphasis is placed on the audience's appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theatre terms and to recognize the contributions of various theatre artists. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S11248

DRA 170  Play Production I  
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S10529

ECO 151  Survey of Economics  
This course introduces basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon completion, students should be able to explain alternative solutions for economic problems faced by private and government sectors. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S13257

ECO 251  Principles of Microeconomics  
This course introduces economic analysis of individual, business, and industry choices in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S11774

ECO 252  Principles of Macroeconomics  
This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S11710
EDU 118 Principles & Practice of Instructional Assistant 3 0 3
Prerequisites: Take one set Set 1: ENG 080, RED 080 Set 2: ENG 085
This course covers the instructional assistant’s role in the educational system. Topics include history of education, professional responsibilities and ethics, cultural diversity, communication skills, and identification of the optimal learning environment. Upon completion, students should be able to describe the supporting role of the instructional assistant, demonstrate positive communication skills, and discuss educational philosophy. S22282

EDU 119 Introduction to Early Childhood Education 4 0 4
This course covers the foundations of the education profession, the diverse educational settings for young children, professionalism and planning developmentally appropriate programs for all children. Topics include historical foundations, program types, career options, professionalism and creating inclusive environments and curriculum responsive to the needs of all children and families. Upon completion, students should be able to design career plans and develop schedules, environments and activity plans appropriate for all children. S22283

EDU 131 Child, Family, & Community 3 0 3
Prerequisites: Take one set Set 1: ENG 080, RED 080 Set 2: ENG 085
This course covers the development of partnerships between culturally and linguistically diverse families, children, schools and communities. Emphasis is placed on developing skills and identifying benefits for establishing, supporting, and maintaining respectful, collaborative relationships between diverse families, programs/schools, and community agencies/resources. Upon completion, students should be able to explain appropriate relationships between families, educators, and professionals that enhance development and educational experiences of all children. S22287

EDU 144 Child Development I 3 0 3
Prerequisites: Take one set Set 1: ENG 080, RED 080 Set 2: ENG 085
This course includes the theories of child development, needs, milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S22288

EDU 145 Child Development II 3 0 3
Prerequisites: Take one set Set 1: ENG 080, RED 080 Set 2: ENG 085
This course includes the theories of child development, needs, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S22289

EDU 146 Child Guidance 3 0 3
Prerequisites: Take one set Set 1: ENG 080, RED 080 Set 2: ENG 085
This course introduces principles and practical techniques including the design of learning environments for providing developmentally appropriate guidance for all children, including those at risk. Emphasis is placed on observation skills, cultural influences, underlying causes of behavior, appropriate expectations, development of self control and the role of communication and guidance. Upon completion, students should be able to demonstrate direct/indirect strategies for preventing problem behaviors, teaching appropriate/acceptable behaviors, negotiation, setting limits and recognizing at risk behaviors. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S22290

EDU 151 Creative Activities 3 0 3
Prerequisites: Take one set Set 1: ENG 080, RED 080 Set 2: ENG 085
This course covers planning, creation and adaptation of developmentally supportive learning environments with attention to curriculum, interactions, teaching practices and learning materials. Emphasis is placed on creating and adapting integrated, meaningful, challenging and engaging developmentally supportive learning experiences in art, music, movement and dramatics for all children. Upon completion, students should be able to create, adapt, implement and evaluate developmentally supportive learning materials, experiences and environments. S22294
EDU 153  Health, Safety & Nutrition  
Prerequisites: Take one set Set 1: ENG 080, RED 080 Set 2: ENG 085  
This course covers promoting and maintaining the health and well-being of all children. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, recognition and reporting of abuse and neglect and state regulations. Upon completion, students should be able to demonstrate knowledge of health, safety, and nutritional needs, safe learning environments, and adhere to state regulations. S22300

EDU 162  Observation & Assessment in ECE  
Prerequisites: Take one set Set 1: ENG 080, RED 080 Set 2: ENG 085  
This course introduces the research, benefits, goals, and ethical considerations associated with observation and assessment in Early Childhood environments. Emphasis is placed on the implementation of multiple observation/assessment strategies including anecdotal records, event samples, rating scales, and portfolios to create appropriate learning experiences. Upon completion, students should be able to practice responsible assessment and use assessments to enhance programming and collaboration for children and families. S22305

EDU 163  Classroom Management & Instruction  
Prerequisites: Take one set. Set 1: ENG 080, RED 080 Set 2: ENG 085  
This course covers management and instructional techniques with school-age populations. Topics include classroom management and organization, teaching strategies, individual student differences and learning styles, and developmentally appropriate classroom guidance techniques. Upon completion, students should be able to utilize developmentally appropriate behavior management and instructional strategies that enhance the teaching/learning process and promote students' academic success. S22306

EDU 184  Early Child Intro Pract  
Prerequisites:Take one set Set 1: ENG 080, RED 080, EDU 119 Set 2: ENG 085, EDU 119  
This course introduces students to early childhood settings and applying skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on observing children and assisting in the implementation of developmentally appropriate activities/environments for all children; and modeling reflective/professional practices. Upon completion, students should be able to demonstrate developmentally appropriate interactions with children and ethical/professional behaviors as indicated by assignments and onsite faculty visits. S22268

EDU 216  Foundations of Education  
Prerequisites: Take one set. Set 1: ENG 090, RED 090 Set 2: ENG 095  
This course introduces the American educational system and the teaching profession. Topics include historical and philosophical foundations of education, contemporary educational, structural, legal, and financial issues, and experiences in public school classrooms. Upon completion, students should be able to relate classroom observations to the roles of teachers and schools and the process of teacher education. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement at select institutions only. S22317

EDU 221  Children with Exceptionalities  
Prerequisites: Take one set. Set 1: ENG 090, RED 090, EDU 144 EDU 145 Set 2: ENG 090, RED 090, PSY 244 PSY 245 Set 3: ENG 095, EDU 144 EDU 145 Set 4: ENG 095, PSY 244 PSY 245  
This course introduces children with exceptionalities, their families, support services, inclusive/diverse settings, and educational/family plans based on the foundations of child development. Emphasis is placed on the characteristics of exceptionalities, observation and assessment of children, strategies for adapting the learning environment, and identification of community resources. Upon completion, students should be able to recognize diverse abilities, describe the referral process, and depict collaboration with families/professionals to plan/implement, and promote best practice. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement at select institutions only. S22318

EDU 222  Learners with Behavioral Disorders  
(EDU 222 replaced EDU 147)  
Prerequisites: Take one set. Set 1: ENG 090, RED 090, EDU 144, EDU 145 Set 2: ENG 090, RED 090, PSY 244, PSY 245 Set 3: ENG 095, EDU 144, EDU 145 Set 4: ENG 095, PSY 244, PSY 245  
This course provides a comprehensive study of learners with behavioral disorders encompassing characteristics, assessments, placement alternatives, inclusion and family interventions. Topics include legislation, appropriate management interventions, and placement options for children with behavior disorders. Upon completion, students should be able to identify, develop, and utilize positive behavior support systems. S22291
**Course Descriptions**

**EDU 223  Specific Learning Disabilities**  
Prerequisites: Take one set. Set 1: ENG 090, RED 090, EDU 144, EDU 145  
This course provides a comprehensive study of characteristics, alternative assessments, teaching strategies, placement options, inclusion, and family intervention for children with specific learning disabilities. Topics include causes, assessment instruments, learning strategies, and collaborative/inclusion methods for children with specific learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with specific learning disabilities and their families. S22292

**EDU 234  Infants, Toddlers, & Twos**  
Prerequisites: Take one set. Set 1: ENG 090, RED 090, EDU 119  
This course covers the unique needs and rapid changes that occur in the first three years of life and the inter-related factors that influence development. Emphasis is placed on recognizing and supporting developmental milestones through purposeful strategies, responsive care routines and identifying elements of quality, inclusive early care and education. Upon completion, students should be able to demonstrate respectful relationships that provide a foundation for healthy infant/toddler/twos development, plan/select activities/materials, and partner with diverse families. S22321

**EDU 235  School-Age Development & Program**  
Prerequisites: Take one set. Set 1: ENG 090, RED 090 Set 2: ENG 095  
This course includes developmentally appropriate practices in group settings for school-age children. Emphasis is placed on principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for all children ages five to twelve and plan and implement developmentally-appropriate activities. S22322

**EDU 241  Adult-Child Relations**  
Prerequisites: Take one set. Set 1: ENG 090, RED 090 Set 2: ENG 095  
This course covers self-concept and effective and active listening skills in positive one-to-one interactions with individuals and groups of children. Emphasis is placed on self-concept development and effective communication techniques used with children. Upon completion, students should be able to identify principles underlying self-concept and demonstrate effective listening and communication skills used by adults with children. S22324

**EDU 243  Learning Theory**  
Prerequisites: Take one set. Set 1: ENG 090, RED 090 Set 2: ENG 095  
This course provides lateral entry teachers an introduction to learning theory, various styles of learning, and motivational factors involved in the learning process. Emphasis is placed on the development of cognitive skills using the eight types of intelligence and applying these to practical classroom situations. Upon completion, students should be able to describe theories and styles of learning and discuss the relationship between different types of intelligence to learning motivation. S22325

**EDU 247  Sensory & Physical Disabilities**  
Prerequisites: Take one set. Set 1: ENG 090, RED 090, EDU 144, EDU 145 Set 2: ENG 095, RED 090, PSY 244, PSY 245 Set 3: ENG 095, EDU 144, EDU 145 Set 4: ENG 095, PSY 244, PSY 245  
This course covers characteristics, intervention strategies, assistive technologies, and inclusive practices for children with sensory and physical disabilities. Topics include inclusive placement options, utilization of support services, other health impairments and family involvement for children with sensory and physical disabilities. Upon completion, students should be able to identify and utilize intervention strategies and service delivery options for those specific disabilities. S22328

**EDU 248  Developmental Delays**  
Prerequisites: Take one set. Set 1: ENG 090, RED 090, EDU 144, EDU 145 Set 2: ENG 095, RED 090, PSY 244, PSY 245 Set 3: ENG 095, EDU 144, EDU 145 Set 4: ENG 095, PSY 244, PSY 245  
This course covers the causes and assessment of developmental delays and individualized instruction and curriculum for children with developmental delays. Emphasis is placed on definition, characteristics, assessment, educational strategies, inclusion, family involvement, and services for children with developmental delays. Upon completion, students should be able to identify, assess, and plan educational intervention strategies for children with developmental delays and their families. S22329

</table>
EDU 280  Language & Literacy Experience  
Prerequisites: Take one set. Set 1: ENG 090, RED 090 Set 2: ENG 095  
This course is designed to expand students' understanding of children's language and literacy development and provides strategies for enhancing language/literacy experiences in an enriched environment. Topics include selection of diverse literature and interactive media, the integration of literacy concepts throughout the curriculum, appropriate observations/assessments and inclusive practices. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate and diverse language/literacy experiences. S22339

EDU 281  Instructional Strategies in Reading & Writing  
(EDU 281 replaced EDU 186)  
Prerequisites: Take one set. Set 1: ENG 090, RED 090 Set 2: ENG 095  
This course covers concepts, resources, and methods for teaching reading and writing to elementary through middle-grade children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches and instructional strategies. Upon completion, students should be able to assess, plan, implement and evaluate school-age literacy experiences as related to the North Carolina Standard Course of Study. S22293

EDU 284  Early Child Capstone Practicum  
Prerequisites: Take One Set: Set 1: ENG 090, RED 090, EDU 119, EDU 144, EDU 145, EDU 146, and EDU 151 Set 2: ENG 090, RED 090, EDU 119, PSY 244, PSY 245, EDU 146, and EDU 151 Set 3: ENG 090, RED 090, EDU 119, PSY 245, EDU 144, EDU 146, and EDU 151 Set 4: ENG 090, RED 090, EDU 119, PSY 244, EDU 145, EDU 146, and EDU 151 Set 5: ENG 095, EDU 119, EDU 144, EDU 145, EDU 146, and EDU 151 Set 6: ENG 095, EDU 119, PSY 244, PSY 245, EDU 146, and EDU 151 Set 7: ENG 095, EDU 119, EDU 144, PSY 245, EDU 146, and EDU 151 Set 8: ENG 095, EDU 119, EDU 145, PSY 244, EDU 146, and EDU 151  
This course is designed to allow students to apply skills in a three star (minimum) or NAECY accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors as indicated by assignments and onsite faculty visits. S22273

EDU 285  Internship Experience-School Age  
This course is designed to allow students to apply skills in a quality public or private school environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors as indicated by assignments and on site faculty visits. S22349

EDU 287  Leadership/Early Child Education  
Prerequisites: Take one set. Set 1: ENG 090, RED 090, EDU 119, EDU 131, EDU 144, EDU 145 Set 2: ENG 090, RED 090, EDU 119, PSY 244, PSY 245 Set 3: ENG 095, EDU 119, EDU 131, EDU 144, EDU 145 Set 4: ENG 095, EDU 119, EDU 131, PSY 244, PSY 245  
This course is designed to facilitate and guide the development of early childhood professionals preparing for leadership roles in improving community early childhood services. Topics include principles of social change, characteristics of effective leaders, techniques of action research, childcare funding mechanisms, quality initiatives, and key issues in early care. Upon completion, students should be able to identify key issues; develop strategic plans; establish relationships with community leaders; and identify opportunities and barriers for advocacy. S22351
EDU 288  Advanced Issues in Early Childhood Education  
Prerequisites: Take one set. Set 1: ENG 090, RED 090 Set 2: ENG 095  
This course covers advanced topics and issues in early childhood. Emphasis is placed on current advocacy issues, emerging technology, professional growth experiences, and other related topics. Upon completion, students should be able to list, discuss, and explain advanced current topics and issues in early childhood education. S22342

EDU 289  Advanced Issues in School Age  
Prerequisites: Take one set. Set 1: ENG 090, RED 090 Set 2: ENG 095  
This course covers advanced topics and issues that relate to school-age programs. Emphasis is placed on current advocacy issues, emerging technology, professional growth, ethics, and organizations for providers/teachers working with school-age populations. Upon completion, students should be able to list, discuss, and explain advanced current topics and issues surrounding school-aged populations. S22275

ENGINEERING (EGR)

EGR 110  Introduction to Engineering Technology  
This course introduces general topics relevant to engineering technology. Topics include career assessment, professional ethics, critical thinking and problem solving, usage of college resources for study and research, and using tools for engineering computations. Upon completion, students should be able to choose a career option in engineering technology and utilize college resources to meet their educational goals. S20645

EGR 120  Engineering and Design Graphics  
This course introduces the graphical tools for engineering and design communications. Emphasis is placed upon selecting the appropriate methods and tools and conveying ideas using sketches, orthographic views and projections, and computer graphics applications. Upon completion, students should be able to communicate essential features or two-dimensional and three-dimensional objects using the proper tools and methods. S20678

EGR 131  Introduction to Electronics Technology  
This course introduces the basic skills required for electrical/electronics technicians. Topics include soldering/desoldering, safety practices, test equipment, scientific calculators, AWG wire table, the resistor color code, electronic devices, problem solving, and use of hand tools. Upon completion, students should be able to solder/desolder, operate test equipment, apply problem-solving techniques, and use a scientific calculator. S12115

EGR 150  Introduction to Engineering  
This course is an overview of the engineering profession. Topics include goal setting and career assessment, ethics, public safety, the engineering method and design process, written and oral communication, interpersonal skills and team building, and computer applications. Upon completion, students should be able to understand the engineering process, the engineering profession, and utilize college resources to meet their educational goals. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. S20709

EGR 220  Engineering Statics Education  
Prerequisites: PHY 251  
Corequisites: MAT 272  
This course introduces the concepts of engineering based on forces in equilibrium. Topics include concentrated forces, distributed forces, forces due to friction, and inertia as they apply to machines, structures, and systems. Upon completion, students should be able to solve problems which require the ability to analyze systems of forces in static equilibrium. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S13929

ELECTRICITY (ELC)

ELC 111  Introduction to Electricity  
This course introduces the fundamental concepts of electricity and test equipment to non-electrical/electronic majors. Topics include basic DC and AC principles (voltage, resistance, current, impedance); components (resistors, inductors, and capacitors); power; and operation of test equipment. Upon completion, students should be able to construct and analyze simple DC and AC circuits using electrical test equipment. S11841

</tr>
</tbody>
</table>
**Course Descriptions**

**ELC 135  Electrical Machines**  
2 2 3  
This course covers magnetic circuits, transformers, DC/AC machines, and the three-phase circuit fundamentals including power factor. Topics include magnetic terms and calculations, transformer calculations based on primary or secondary equivalent circuits, and regulation and efficiency calculations. Upon completion, students should be able to perform regulation and efficiency calculations for DC/AC machine circuits. S21596

**ELC 136  Electrical Machines II**  
3 3 4  
This course covers DC/AC machine fundamentals including applications and control. Topics include control devices and induction single and polyphase AC motors, DC motors, stepper, and special purpose motors. Upon completion, students should be able to perform regulation and efficiency calculations and apply motor theory to practical control applications. S21597

**ELC 228  PLC Applications**  
Prerequisites: ELC 128  
2 6 4  
This course covers programming and applications of programmable logic controllers. Emphasis is placed on programming techniques, networking, specialty I/O modules, and system troubleshooting. Upon completion, students should be able to specify, implement, and maintain complex PLC controlled systems. S21601

**ELC 233  Energy Management**  
2 2 3  
This course covers energy management principles and techniques typical of those found in industry and commercial facilities, including load control and peak demand reduction systems. Topics include load and peak demand calculations, load shedding, load balance and power factor, priority scheduling, remote sensing and control, and supplementary/alternative energy sources. Upon completion, students should be able to determine energy management parameters, calculate demand and energy use, propose energy management procedures, and implement alternative energy sources. S21604

---

**ELECTRONICS (ELN)**

**ELN 131  Semiconductor Applications**  
3 3 4  
This course introduces the characteristics and applications of semiconductor devices and circuits. Emphasis is placed on analysis, selection, biasing, and applications. Upon completion, students should be able to construct, analyze, verify, and troubleshoot discrete component circuits using appropriate techniques and test equipment. S21622

**ELN 133  Digital Electronics**  
3 3 4  
This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, MSI and LSI circuits, AD/DA conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment. S16330

---

**EMERGENCY MEDICAL SCIENCE (EMS)**

**EMS 110  EMT-Basic**  
5 6 0 7  
This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT-Basic certification. S16335

**EMS 120  Intermediate Intervention**  
Prerequisites: EMS-110  
2 3 0 3  
Corequisites: Take one set. Set 1: EMS-121, EMS-130 and EMS-131 Set 2: EMS-122, EMS-130, and EMS-131  
This course is designed to provide the necessary information for interventions appropriate to the EMT-Intermediate and is required for intermediate certification. Topics include automated external defibrillation, basic cardiac electrophysiology, intravenous therapy, venipuncture, acid-base balance, and fluids and electrolytes. Upon completion, students should be able to properly establish an IV line, obtain venous blood, utilize AEDs, and correctly interpret arterial blood gases. S10478

**Course Descriptions**

**EMS 121 EMS Clinical Practicum I**
Prerequisites: EMS-110
Corequisites: EMS-120, EMS-130, and EMS-131
This course is the initial hospital and field internship and is required for intermediate and paramedic certification. Emphasis is placed on intermediate-level care. Upon completion, students should be able to demonstrate competence with intermediate-level skills. S10423

**EMS 130 Pharmacology I for EMS**
Prerequisites: EMS-110
Corequisites: EMS-120 and EMS-131
This course introduces the fundamental principles of pharmacology and medication administration and is required for intermediate and paramedic certification. Topics include terminology, pharmacokinetics, pharmacodynamics, weights, measures, drug calculations, legislation, and administration routes. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology. S16339

**EMS 131 Advanced Airway Management**
Prerequisites: EMS-110
Corequisites: EMS-120 and EMS-131
This course is designed to provide advanced airway management techniques and is required for intermediate and paramedic certification. Topics include respiratory anatomy and physiology, airway, ventilation, adjuncts, surgical intervention, and rapid sequence intubation. Upon completion, students should be able to properly utilize all airway adjuncts and pharmacology associated with airway control and maintenance. S13314

**EMS 140 Rescue Scene Management**
This course introduces rescue scene management and is required for paramedic certification. Topics include response to hazardous material conditions, medical incident command, and extrication of patients from a variety of situations. Upon completion, students should be able to recognize and manage rescue operations based upon initial and follow-up scene assessment. S16340

**EMS 150 Emergency Vehicles & EMS Communication**
This course examines the principles governing emergency vehicles, maintenance of emergency vehicles, and EMS communication equipment and is required for paramedic certification. Topics include applicable motor vehicle laws affecting emergency vehicle operation, defensive driving, collision avoidance techniques, communication systems, and information management systems. Upon completion, students should have a basic knowledge of emergency vehicles, maintenance, and communication needs. S11566

**EMS 210 Advanced Patient Assessment**
Prerequisites: Take 1 set from: Set 1: EMS-120, EMS-121, EMS-130, and EMS-131 Set 2: EMS-120, EMS-122, EMS-130, and EMS-131
This course covers advanced patient assessment techniques and is required for paramedic certification. Topics include initial assessment, medical-trauma history, field impression, complete physical exam process, on-going assessment, and documentation skills. Upon completion, students should be able to utilize basic communication skills and record and report collected patient data. S14042

**EMS 220 Cardiology**
Prerequisites: EMS-120, EMS-130, and EMS-131
This course provides an in-depth study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, rhythm interpretation, cardiac pharmacology, and patient treatment. Upon completion, students should be able to certify at the Advanced Cardiac Life Support Provider level utilizing American Heart Association guidelines. S16342

**EMS 221 EMS Clinical Practicum II**
Prerequisites: Take 1 set from: Set 1: EMS-121 Set 2: EMS-122 and COE-111
This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care. S10590
EMS 230  Pharmacology II for EMS  
Prerequisites: EMS-130  
This course explores the fundamental classification and action of common pharmacologic agents. Emphasis is placed on the action and use of compounds most commonly encountered in the treatment of chronic and acutely ill patients. Upon completion, students should be able to demonstrate general knowledge of drugs covered during the course. S16343

EMS 231  EMS Clinical Practicum III  
Prerequisites: Take One Set: Set 1: EMS-221 Set 2: EMS-222 and COE-121  
This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care. S11637

EMS 240  Special Needs Patients  
Prerequisites: Take One Set: Set 1: EMS-120, EMS-121, EMS-130, and EMS-131 Set 2: EMS-120, EMS-122, EMS-130, and EMS-131  
This course includes concepts of crisis intervention and techniques of dealing with special needs patients and is required for paramedic certification. Topics include behavioral emergencies, abuse, assault, challenged patients, personal well-being, home care, and psychotherapeutic pharmacology. Upon completion, students should be able to recognize and manage frequently encountered special needs patients. S16346

EMS 241  EMS Clinical Practicum IV  
Prerequisites: Take One Set: Set 1: EMS-231 Set 2: EMS-232 and COE-131  
This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to provide advanced-level patient care as an entry-level paramedic. S11052

EMS 250  Advanced Medical Emergencies  
Prerequisites: Take One Set: Set 1: EMS-120, EMS-121, EMS-130, and EMS-131 Set 2: EMS-120, EMS-122, EMS-130, and EMS-131  
This course provides an in-depth study of medical conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include pulmonology, neurology, endocrinology, anaphylaxis, gastroenterology, toxicology, and environmental emergencies integrating case presentation and emphasizing pharmacotherapeutics. Upon completion, students should be able to recognize and manage frequently encountered medical conditions based upon initial patient impression. S11267

EMS 260  Advanced Trauma Emergencies  
Prerequisites: Take One Set: Set 1: EMS-120, EMS-121, EMS-130, and EMS-131 Set 2: EMS-120, EMS-122, EMS-130, and EMS-131  
This course provides in-depth study of trauma including pharmacological interventions for conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include hemorrhage control, shock, burns, and trauma to head, spine, soft tissue, thoracic, abdominal, and musculoskeletal areas with case presentations utilized for special problems situations. Upon completion, students should be able to recognize and manage trauma situations based upon patient impressions and should meet requirements of BTLS or PHTLS courses. S10208

EMS 270  Life Span Emergencies  
Prerequisites: EMS-120, EMS-130, and EMS-131  
This course, required for paramedic certification, covers medical/ethical/legal issues and the spectrum of age-specific emergencies from conception through death. Topics include gynecological, obstetrical, neonatal, pediatric, and geriatric emergencies and pharmacological therapeutics. Upon completion, students should be able to recognize and treat age-specific emergencies and certify at the Pediatric Advanced Life Support Provider level. S12208

EMS 285  EMS Capstone  
Prerequisites: EMS-220, EMS-250, and EMS-260  
This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events. S10931
ENGLISH (ENG)

Initial student placement in developmental courses is based on individual college placement testing policies and procedures. Students should begin developmental course work at the appropriate level indicated by the college's placement test.

ENG 75 Reading & Language Essentials  5 0 5
This course uses whole language to develop proficiency in basic reading and writing. Emphasis is placed on increasing vocabulary, developing comprehension skills, and improving grammar. Upon completion, students should be able to understand and create grammatically and syntactically correct sentences. This course integrates ENG 070 and RED 070. This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A. S12307

ENG 85 Reading & Writing Foundations  5 0 5
Prerequisites: ENG 070 and RED 070, or ENG 075
This course uses whole language to develop proficiency in reading and writing for college. Emphasis is placed on applying analytical and critical reading skills to a variety of texts and on introducing the writing process. Upon completion, students should be able to recognize and use various patterns of text organization and compose effective paragraphs. This course integrates ENG 080 and RED 080. This course does not satisfy the developmental reading and writing for ENG 111 or ENG 111A. S10797

ENG 95 Reading & Composition Strategies  5 0 5
Prerequisites: ENG 080 and RED 080; or ENG 085
This course uses whole language to strengthen proficiency in reading and writing for college. Emphasis is placed on applying critical reading skills to narrative and expository texts and on using the writing process. Upon completion, students should be able to comprehend, analyze, and evaluate college texts and to compose essays in preparation for college writing. This course integrates ENG 090 and RED 090. This course satisfies the developmental reading and writing for ENG 111 and ENG 111A. S12996

ENG 101 Applied Communications I  3 0 3
This course is designed to enhance reading and writing skills for the workplace. Emphasis is placed on technical reading, job-related vocabulary, sentence writing, punctuation, and spelling. Upon completion, students should be able to identify main ideas with supporting details and produce mechanically correct short writings appropriate to the workplace. This is a diploma-level course. S12858

ENG 111 Expository Writing  3 0 3
Prerequisites: ENG 090 and RED 090 or ENG 095
This course is the required first course in a series of two designed to develop the ability to produce clear expository prose. Emphasis is placed on the writing process including audience analysis, topic selection, thesis support and development, editing, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in English Composition. S13673

ENG 113 Literature-Based Research  3 0 3
Prerequisites: ENG 111
This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in English Composition. S13650

ENG 114 Professional Research & Reporting  3 0 3
Prerequisites: ENG 111
This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in English Composition. S13706
ENG 125  Creative Writing I  3 0 3
Prerequisites: ENG 111
This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S16350

ENG 126  Creative Writing II  3 0 3
Prerequisites: ENG 125
This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S12088

ENG 231  American Literature I  3 0 3
Prerequisites: ENG 113 or ENG 114
This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S13883

ENG 232  American Literature II  3 0 3
Prerequisites: ENG 113 or ENG 114
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S13856

ENG 233  Major American Writers  3 0 3
Prerequisites: ENG 113 or ENG 114
This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S13908

ENG 235  Survey of Film as Literature  3 0 3
Prerequisites: ENG 113
This course provides a study of the medium of film with a focus on the historical impact and the various literary genres of movies. Emphasis is placed on an appreciation of film as a form of literature which demonstrates various elements of fiction (character, setting, theme, etc.). Upon completion, students should be able to analyze film critically in various literary contexts. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S13856

ENG 241  British Literature I  3 0 3
Prerequisites: ENG 113 or ENG 114
This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S11763

ENG 242  British Literature II  3 0 3
Prerequisites: ENG 113 or ENG 114
This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S11698
ENG 243  Major British Writers  3 0 3
Prerequisites: ENG 113 or ENG 114
This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S11728

ENG 251  Western World Literature I  3 0 3
Prerequisites: ENG 113 or ENG 114
This course provides a survey of selected European works from the Classical period through the Renaissance. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S14255

ENG 252  Western World Literature II  3 0 3
Prerequisites: ENG 113 or ENG 114
This course provides a survey of selected European works from the Neoclassical period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S14203

ENG 261  World Literature I  3 0 3
Prerequisites: ENG 113 or ENG 114
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S12708

ENG 262  World Literature II  3 0 3
Prerequisites: ENG 113 or ENG 114
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S12600

ENG 272  Southern Literature  3 0 3
Prerequisites: ENG 113 or ENG 114
This course provides an analytical study of the works of several Southern authors. Emphasis is placed on the historical and cultural contexts, themes, aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S13535

ENG 273  African-American Literature  3 0 3
Prerequisites: ENG 113 or ENG 114
This course provides a survey of the development of African-American literature from its beginnings to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S13578

ENG 274  Literature by Women  3 0 3
Prerequisites: ENG 112, ENG 113, or ENG 114
This course provides an analytical study of the works of several women authors. Emphasis is placed on the historical and cultural contexts, themes and aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S13548
ENG 275  Science Fiction  3  0  3
Prerequisites:  ENG 113 or ENG 114
This course covers the relationships between science and literature through analysis of short stories and novels. Emphasis is placed on scientific discoveries that shaped Western culture and our changing view of the universe as reflected in science fiction literature. Upon completion, students should be able to trace major themes and ideas and illustrate relationships between science, worldview, and science fiction literature. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S13564

ENTREPRENEURSHIP (ETR)

ETR 215  Law for Entrepreneurs  3  0  3
This course introduces students to basic legal concepts specifically relevant to a business start-up venture. Topics include bailments and documents of title, nature and form of sales, risk and property rights, obligations and performance, business organizations, and agency and employment. Upon completion, students should be able to assess the legal responsibilities of a business start-up. S22096

ETR 220  Innovation and Creativity  3  0  3
This course provides a study of developing and enhancing individual and organizational creativity and innovation. Topics include that innovation needs to be applied to products, services, and processes to increase competitive advantages and add value to businesses. Upon completion, students should be able to apply innovation and creativity principles in the work place. S22099

ETR 230  Entrepreneur Marketing  3  0  3
This course covers the techniques to correctly research and define the target market to increase sales for start up businesses or to expand current businesses. Topics include how to target market and meet customers' needs with a limited budget in the early stages of the life of a start up business. Upon completion, students should be able to demonstrate an understanding of how to correctly target market for a start-up business with limited resources. S22100

ETR 240  Funding for Entrepreneurs  3  0  3
Prerequisites:  ACC 120
This course provides a focus on the financial issues and needs confronting entrepreneurs attempting to grow their businesses by attracting startup and growth capital. Topics include sources of funding including angel investors, venture capital, IPO's, private placement, banks, suppliers, buyers, partners, and the government. Upon completion, students should be able to demonstrate an understanding of how to effectively finance a business venture. S22101

ETR 270  Entrepreneurship Issues  3  0  3
This course introduces current and emerging entrepreneurship issues and opportunities. Topics include franchising, import/export, small business taxes, legal structures, negotiations, contract management, and time management. Upon completion, students should be able to apply a variety of analytical and decision-making requirements to start a new business. S22102

FRENCH (FRE)

FRE 111  Elementary French I  3  0  3
This course introduces the fundamental elements of the French language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. S11534

FRE 112  Elementary French II  3  0  3
Prerequisites:  FRE 111
This course is a continuation of FRE 111 focusing on the fundamental elements of the French language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. S11626

HIS 165  **Twentieth-Century World**  
This course includes the major developments, issues, and ideas in twentieth-century world history. Emphasis is placed on contrasting political systems, the impact of science and technology, and the philosophical temperament of twentieth-century people. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the twentieth century. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S12963

HIS 221  **African-American History**  
This course covers African-American history from the Colonial period to the present. Topics include African origins, the slave trade, the Civil War, Reconstruction, the Jim Crow era, the civil rights movement, and contributions of African Americans. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the history of African Americans. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S11507

HIS 226  **The Civil War**  
This course examines the social, political, economic, and ideological forces that led to the Civil War and Reconstruction. Topics include regional conflicts and sectionalism, dissolution of the Union, military campaigns, and the War's socioeconomic impact, aftermath, and consequences. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the United States during the era of the Civil War. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S11444

HIS 227  **Native American History**  
This course surveys the history and cultures of Native Americans from pre-history to the present. Topics include Native American civilizations, relations with Europeans, and the continuing evolution of Native American cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments among Native Americans. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S11493

HIS 231  **Recent American History**  
This course is a study of American society from the post-Depression era to the present. Topics include World War II, the Cold War, social unrest, the Vietnam War, the Great Society, and current political trends. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in recent America. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S11165

HIS 233  **History of Appalachia**  
This course introduces the Appalachian region and its relationship to mainstream American history. Topics include regional settlement patterns and a study of Appalachian culture. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in Appalachia. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S11169

HIS 234  **Cherokee History**  
This course is a survey of the history and culture of the Cherokees. Topics include origins, belief systems, contact and conflict with European settlers, removals, and contemporary problems faced by the Cherokees. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in Cherokee history. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S11138

HIS 262  **Middle East History**  
This course surveys the history of the Middle East from the development of civilization in Mesopotamia to the present. Emphasis is placed on social, political, economic, religious, and governmental structures in the Middle East. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the Middle East. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S11865

</table>
HUM 120 Cultural Studies  3 0 3
This course introduces the distinctive features of a particular culture. Topics include art, history, music, literature, politics, philosophy, and religion. Upon completion, students should be able to appreciate the unique character of the study culture. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S12973

HUM 121 The Nature of America  3 0 3
This course provides an interdisciplinary survey of the American cultural, social, and political experience. Emphasis is placed on the multicultural character of American society, distinctive qualities of various regions, and the American political system. Upon completion, students should be able to analyze significant cultural, social, and political aspects of American life. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S13080

HUM 130 Myth in Human Culture  3 0 3
This course provides an in-depth study of myths and legends. Topics include the varied sources of myths and their influence on the individual and society within diverse cultural contexts. Upon completion, students should be able to demonstrate a general familiarity with myths and a broad-based understanding of the influence of myths and legends on modern culture. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S13721

HUM 160 Introduction to Film  2 2 3
This course introduces the fundamental elements of film artistry and production. Topics include film styles, history, and production techniques, as well as the social values reflected in film art. Upon completion, students should be able to critically analyze the elements covered in relation to selected films. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S16395

HUM 161 Advanced Film Studies
Prerequisites: HUM 160
This course provides an advanced study of film art and production, building on skills learned in HUM 160. Topics include film production techniques, film genres, examination of master directors’ styles, and the relation of film to culture. Upon completion, students should be able to recognize and critically analyze advanced elements of film production. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S10896

HUM 211 Humanities I
Prerequisites: ENG 111
This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind’s answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from ancient through early modern times. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S10430

HUM 212 Humanities II
Prerequisites: ENG 111
This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind’s answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from early modern times to the present. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S10487

HUM 220 Human Values and Meaning
Prerequisites: ENG 111
This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society, and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between open and closed questions and between narrative and scientific models of understanding. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S11527
HUM 230  Leadership Development  3 0 3
Prerequisites: ENG 111
This course explores the theories and techniques of leadership and group process. Emphasis is placed on leadership styles, theories of group dynamics, and the moral and ethical responsibilities of leadership. Upon completion, students should be able to identify and analyze a personal philosophy and style of leadership and integrate these concepts in various practical situations. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S11154

INDUSTRIAL SCIENCE (ISC)

ISC 112  Industrial Safety  2 0 2
This course introduces the principles of industrial safety. Emphasis is placed on industrial safety, OSHA, and environmental regulations. Upon completion, students should be able to demonstrate knowledge of a safe working environment and OSHA compliance. S20649

ITALIAN (ITA)

ITA 111  Elementary Italian I  3 0 3
This course introduces the fundamental elements of the Italian language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Italian and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. S11164

ITA 112  Elementary Italian II  3 0 3
This course is a continuation of ITA 111 focusing on the fundamental elements of the Italian language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Italian and demonstrate further cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. S11116

JOURNALISM (JOU)

JOU 110  Introduction to Journalism  3 0 3
This course presents a study of journalistic news, feature, and sports writing. Emphasis is placed on basic news writing techniques and on related legal and ethical issues. Upon completion, students should be able to gather, write, and edit news, feature, and sports articles. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S12092

JOU 216  Writing for Mass Media  2 2 3
This course is an introduction to news writing for newspapers and other print media including the techniques of news gathering, reporting, and interviewing. Emphasis is placed on basic methods of gathering information, conducting interviews, organizing a story, writing leads, writing clear, concise copy, and upon developing research skills. Upon completion, students should be able to write clear, concise, accurate, complete, balanced and readable news stories according to guidelines set by industry standards. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S21391

JOU 217  Feature/Editorial Writing  2 2 3
Prerequisites: ENG 111
This course covers the basics of persuasive writing for community newspapers and other print media. Emphasis is placed on writing features, reviews, and editorials including audience analysis, appropriate language, effective supporting details, completeness, and accuracy. Upon completion, students should be able to write effective feature stories, reviews, and editorials. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S20976

MAT 140  **Survey of Mathematics**  
3 0 3  
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, and DMA-040  
Set 1: MAT-060* and MAT-070 Set 2: MAT-060* and MAT-080  
Set 3: MAT-060* and MAT-090  
Set 4: MAT-095  
Set 5: MAT-120  
Set 6: MAT-121 Set 7: MAT-161 Set 8: MAT-171 Set 9: MAT-175  
This course provides an introduction in a non-technical setting to selected topics in mathematics. Topics may  
include, but are not limited to, sets, logic, probability, statistics, matrices, mathematical systems, geometry,  
topology, mathematics of finance, and modeling. Upon completion, students should be able to understand a  
variety of mathematical applications, think logically, and be able to work collaboratively and independently.  
Under the Comprehensive Articulation Agreement, this course satisfies the general education Mathematics  
requirement for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement  
for the AS degree. S20907

MAT 140A  **Survey of Mathematics Lab**  
0 2 1  
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, and DMA-040  
Set 1: MAT-060* and MAT-070 Set 2: MAT-060* and MAT-080 Set 3: MAT-060* and MAT-090  
Set 4: MAT-095 Set 5: MAT-120 Set 6: MAT-121 Set 7: MAT-161 Set 8: MAT-171 Set 9: MAT-175  
Corequisites: MAT 140  
This course is a laboratory for MAT 140. Emphasis is placed on experiences that enhance the materials  
presented in the class. Upon completion, students should be able to solve problems, apply critical  
thinking, work in teams, and communicate effectively. This course has been approved for transfer under the  
Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S20908

MAT 141  **Mathematical Concepts I**  
3 0 3  
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, and DMA-040  
Set 2: MAT-060* and MAT-080 Set 3: MAT-060* and MAT-090  
Set 4: MAT-095 Set 5: MAT-120 Set 6: MAT-121 Set 7: MAT-161  
Set 8: MAT-171 Set 9: MAT-175  
This course is the first of a two-course sequence that develops a deeper understanding and appreciation of  
the basic concepts of mathematics. Emphasis is placed on sets, logic, number bases, elementary number  
theory, introductory algebra, measurement including metrics, and problem solving. Upon completion,  
students should be able to communicate orally and in writing these basic mathematical concepts. Under the  
Comprehensive Articulation Agreement, this course satisfies the general education Mathematics requirement  
for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement for the AS  
degree. S20909

MAT 141A  **Mathematical Concepts I Lab**  
0 2 1  
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, and DMA-040  
Set 2: MAT-060* and MAT-080 Set 3: MAT-060* and MAT-090  
Set 4: MAT-095 Set 5: MAT-120 Set 6: MAT-121 Set 7: MAT-161  
Set 8: MAT-171 Set 9: MAT-175  
Corequisites: MAT 141  
This course is a laboratory for MAT 141. Emphasis is placed on experiences that enhance the materials  
presented in the class. Upon completion, students should be able to solve problems, apply critical thinking,  
work in teams, and communicate effectively. This course has been approved for transfer under the  
Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S20910

MAT 142  **Mathematical Concepts II**  
3 0 3  
Prerequisites: MAT 141  
This course is the second of a two-course sequence that develops a deeper understanding and appreciation of  
the basic concepts of mathematics. Emphasis is placed on probability, statistics, functions, introductory  
geometry, and mathematics of finance. Upon completion, students should be able to communicate orally  
and in writing these basic mathematical concepts and utilize technology as a mathematical tool. Under the  
Comprehensive Articulation Agreement, this course satisfies the general education Mathematics requirement  
for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement for the AS  
degree. S20300

MAT 142A  **Mathematical Concepts II Lab**  
0 2 1  
Prerequisites: MAT 141  
Corequisites: MAT 142  
This course is a laboratory for MAT 142. Emphasis is placed on experiences that enhance the materials  
presented in the class. Upon completion, students should be able to solve problems, apply critical thinking,  
work in teams, and communicate effectively. This course has been approved for transfer under the CAA as a  
premajor and/or elective course requirement. S20301
MAT 151  Statistics I  
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, and DMA-050 
Set 2: MAT-060* and MAT-080 Set 3: MAT-060* and MAT-090 Set 4: MAT-095 Set 5: MAT-120 
Set 6: MAT-121 Set 7: MAT-140 Set 8: MAT-161 Set 9: MAT-171 Set 10: MAT-175 
This course provides a project-based approach to the study of basic probability, descriptive and inferential 
statistics, and decision making. Emphasis is placed on measures of central tendency and dispersion, 
correlation, regression, discrete and continuous probability distributions, quality control, population parameter 
estimation, and hypothesis testing. Upon completion, students should be able to describe important 
characteristics of a set of data and draw inferences about a population from sample data. This course has 
been approved for transfer under the Comprehensive Articulation Agreement as a general education course in 
Mathematics (Quantitative). S21171

MAT 151A  Statistics I Lab  
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, and DMA-050 
Set 2: MAT-060* and MAT-080 Set 3: MAT-060* and MAT-090 Set 4: MAT-095 Set 5: MAT-120 
Set 6: MAT-121 Set 7: MAT-140 Set 8: MAT-161 Set 9: MAT-171 Set 10: MAT-175 
Corequisites: MAT 151 
This course is a laboratory for MAT 151. Emphasis is placed on experiences that enhance the materials 
presented in the class. Upon completion, students should be able to solve problems, apply critical 
thinking, work in teams, and communicate effectively. This course has been approved for transfer under the 
Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S21482

MAT 155  Statistical Analysis  
Set 1: DMA-010, DMA-020, DMA-030, DMA-040, and DMA-050 Set 2: MAT-060* and MAT-080 
Set 3: MAT-060* and MAT-090 Set 4: MAT-095 Set 5: MAT-120 Set 6: MAT-121 Set 7: MAT-161 Set 8: 
MAT-171 Set 9: MAT-175 
This course is an introduction to descriptive and inferential statistics. Topics include sampling, distributions, 
plotting data, central tendency, dispersion, Central Limits Theorem, confidence intervals, hypothesis testing, 
correlations, regressions, and multinomial experiments. Upon completion, students should be able to describe 
data and test inferences about populations using sample data. This course has been approved for transfer under the 
Comprehensive Articulation Agreement as a general education course in Mathematics (Quantitative). S20914

MAT 155A  Statistical Analysis Lab  
Set 1: DMA-010, DMA-020, DMA-030, DMA-040, and DMA-050 Set 2: MAT-060* and MAT-080 
Set 3: MAT-060* and MAT-090 Set 4: MAT-095 Set 5: MAT-120 Set 6: MAT-121 Set 7: MAT-161 Set 8: 
MAT-171 Set 9: MAT-175 
Corequisites: Take MAT-155 
This course is a laboratory for MAT 155. Emphasis is placed on experiences that enhance the materials 
presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, 
work in teams, and communicate effectively. This course has been approved for transfer under the 
Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S20915

MAT 161  College Algebra  
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, DMA-060, 
DMA-070, and DMA-080 Set 2: MAT-060* and MAT-080 Set 3: MAT-060* and MAT-090 Set 4: MAT-095 
This course provides an integrated technological approach to algebraic topics used in problem solving. 
Emphasis is placed on equations and inequalities; polynomial, rational, exponential 
and logarithmic functions; and graphing and data analysis/modeling. Upon completion, students should be 
able to choose an appropriate model to fit a data set and use the model for analysis and prediction. Under the 
Comprehensive Articulation Agreement, this course satisfies the general education Mathematics requirement 
for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement for the AS 
degree. S20916

MAT 161A  College Algebra Lab  
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, DMA-060, 
DMA-070, and DMA-080 Set 2: MAT-060* and MAT-080 Set 3: MAT-060* and MAT-090 Set 4: MAT-095 
Corequisites: MAT 161 
This course is a laboratory for MAT 161. Emphasis is placed on experiences that enhance the materials 
presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, 
work in teams, and communicate effectively. This course has been approved for transfer under the 
Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S20917
MAT 165  Finite Mathematics  3 0 3
Prerequisites: Take One: MAT-161, MAT-171, or MAT-175
This course provides topics used to formulate models and to solve and interpret solutions using an algorithmic
approach. Topics include linear algebra, linear programming, simplex method, sets and counting, probability,
mathematics of finance, and logic. Upon completion, students should be able to demonstrate both an
understanding of the theoretical concepts of finite mathematics and the ability to solve related problems.
Under the Comprehensive Articulation Agreement, this course satisfies the general education Mathematics
requirement for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement
for the AS degree. S20918

MAT 165A  Finite Mathematics Lab  0 2 1
Prerequisites: Take One: MAT-161, MAT-171, or MAT-175
Corequisites: Take MAT-165
This course is a laboratory for MAT 165. Emphasis is placed on experiences that enhance the materials
presented in the class. Upon completion, students should be able to solve problems, apply critical thinking,
work in teams, and communicate effectively. This course has been approved for transfer under the
Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S20919

MAT 167  Discrete Mathematics  3 0 3
Prerequisites: MAT 121, MAT 161, MAT 171, or MAT 280
This course is a study of discrete mathematics with emphasis on applications. Topics include number systems,
combinations/permutations, mathematical logic/proofs, sets/counting, Boolean algebra, mathematical
induction, trees/graphs, and algorithms. Upon completion, students should be able to demonstrate
competence in the topics covered. This course has been approved for transfer under the Comprehensive
Articulation Agreement as a premajor and/or elective course requirement. S11305

MAT 171  Precalculus Algebra  3 0 3
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, DMA-060,
DMA-070, DMA-080 Set 2: MAT-060* and MAT-080 Set 3: MAT-060* and MAT-090 Set 4: MAT-095
Set 5: MAT-161
This is the first of two courses designed to emphasize topics which are fundamental to the study of calculus.
Emphasis is placed on equations and inequalities, functions (linear, polynomial, rational), systems of equations
and inequalities, and parametric equations. Upon completion, students should be able to solve practical
problems and use appropriate models for analysis and predictions. This course has been approved for transfer
under the Comprehensive Articulation Agreement as a general education course in Mathematics. S20807

MAT 171A  Precalculus Algebra Lab  0 2 1
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, DMA-060,
DMA-070, DMA-080 Set 2: MAT-060* and MAT-080 Set 3: MAT-060* and MAT-090 Set 4: MAT-095
Set 5: MAT-161
Corequisites: MAT 171
This course is a laboratory for MAT 171. Emphasis is placed on experiences that enhance the materials
presented in the class. Upon completion, students should be able to solve problems, apply critical thinking,
work in teams, and communicate effectively. This course has been approved for transfer under the
Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S20808

MAT 172  Precalculus Trigonometry  3 0 3
Prerequisites: MAT 171
This is the second of two courses designed to emphasize topics which are fundamental to the study of calculus.
Emphasis is placed on properties and applications of transcendental functions and their graphs, right and
oblique triangle trigonometry, conic sections, vectors, and polar coordinates. Upon completion, students
should be able to solve practical problems and use appropriate models for analysis and prediction. This course
has been approved for transfer under the Comprehensive Articulation Agreement as a general education course
in Mathematics. S11061

MAT 172A  Precalculus Trigonometry Lab  0 2 1
Prerequisites: MAT 171
Corequisites: MAT 172
This course is a laboratory for MAT 172. Emphasis is placed on experiences that enhance the materials
presented in the class. Upon completion, students should be able to solve problems, apply critical thinking,
work in teams, and communicate effectively. This course has been approved for transfer under the
Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S13758
MAT 175  Precalculus  4 0 4
This course provides an intense study of the topics which are fundamental to the study of calculus. Emphasis is placed on functions and their graphs with special attention to polynomial, rational, exponential, logarithmic and trigonometric functions, and analytic trigonometry. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and prediction. This course has been approved for transfer under the CAA as a general education course in Mathematics. S11270

MAT 175A Precalculus Lab  0 2 1
Corequisites: MAT 175
This course is a laboratory for MAT 175. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S11867

MAT 252  Statistics II  3 0 3
Prerequisites: Take One Set: Set 1: MAT-151 and MAT-121 Set 2: MAT-155 and MAT-121 Set 3: MAT-151 and MAT-161 Set 4: MAT-155 and MAT-161 Set 5: MAT-151 and MAT-175 Set 6: MAT-155 and MAT-175 Set 7: MAT-151 and MAT-271 Set 8: MAT-155 and MAT-271
This course provides a technology-based treatment of multiple sample inferential statistics. Emphasis is placed on two sample hypothesis tests and confidence intervals, linear and multiple regression, analysis of variance, experimental design, and non-parametric techniques. Upon completion, students should be able to draw statistical inferences on multiple sample data taken from business and health, and social, natural, and applied sciences. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S23060

MAT 252A Statistics II Lab  0 2 1
Prerequisites: MAT 151 and either MAT 121 or MAT 161
Corequisites: MAT 252
This course is a laboratory for MAT 252. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S10287

MAT 271  Calculus I  3 2 4
Prerequisites: MAT 172 or MAT 175
This course covers in depth the differential calculus portion of a three-course calculus sequence. Topics include limits, continuity, derivatives, and integrals of algebraic and transcendental functions of one variable, with applications. Upon completion, students should be able to apply differentiation and integration techniques to algebraic and transcendental functions. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Mathematics. S13631

MAT 272  Calculus II  3 2 4
Prerequisites: MAT 271
This course provides a rigorous treatment of integration and is the second calculus course in a three-course sequence. Topics include applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to use integration and approximation techniques to solve application problems. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Mathematics. S13612

MAT 273  Calculus III  3 2 4
Prerequisites: MAT 272
This course covers the calculus of several variables and is the third calculus course in a three-course sequence. Topics include functions of several variables, partial derivatives, multiple integrals, solid analytical geometry, vector-valued functions, and line and surface integrals. Upon completion, students should be able to solve problems involving vectors and functions of several variables. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Mathematics. S13616
MAT 285  Differential Equations  3 0 3
Prerequisites: MAT 272
This course provides an introduction to ordinary differential equations with an emphasis on applications. Topics include first-order, linear higher-order, and systems of differential equations; numerical methods; series solutions; eigenvalues and eigenvectors; Laplace transforms; and Fourier series. Upon completion, students should be able to use differential equations to model physical phenomena, solve the equations, and use the solutions to analyze the phenomena. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S11987

MECHANICAL (MEC)

MEC 110  Introduction to CAD/CAM  1 2 2
This course introduces CAD/CAM. Emphasis is placed on transferring part geometry from CAD to CAM for the development of a CNC-ready program. Upon completion, students should be able to use CAD/CAM software to produce a CNC program. S14051

MEC 111  Machine Processes  2 3 3
This course introduces shop safety, hand tools, machine processes, measuring instruments, and the operation of machine shop equipment. Topics include use and care of tools, safety, measuring tools, and the basic setup and operation of common machine tools. Upon completion, students should be able to safely machine simple parts to specified tolerances. S20654

MEDICAL ASSISTING (MED)

MED 110  Orientation to Medical Assisting  1 0 1
This course covers the history of medicine and the role of the medical assistant in the health care setting. Emphasis is placed on professionalism, communication, attitude, behaviors, and duties in the medical environment. Upon completion, students should be able to project a positive attitude and promote the profession of medical assisting. S11175

MED 121  Medical Terminology I  3 0 3
This course introduces prefixes, suffixes, and word roots used in the language of medicine. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders. S12737

MED 122  Medical Terminology II  3 0 3
Prerequisites: MED 121
This course is the second in a series of medical terminology courses. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders. S12833

MED 130  Administrative Office Procedures I  1 2 2
Prerequisites: ENG 095
This course introduces medical office administrative procedures. Topics include appointment processing, written and oral communications, medical records, patient orientation, and safety. Upon completion, students should be able to perform basic administrative skills within the medical environment. S10285

MED 131  Administrative Office Procedures II  1 2 2
Prerequisites: MED 130
This course provides medical office procedures in both economic and management skills. Topics include physical plant maintenance, equipment and supplies, liability coverage, medical economics, and introductory insurance procedures. Upon completion, students should be able to manage the economics of the medical office and supervise personnel. S16431

MED 134  Medical Transcription  2 2 3
Prerequisites: MED 121 & ENG 095
This course provides the basic knowledge, understanding, and skills required to complete medical reports and transcribe medical dictation. Emphasis is placed on correct punctuation, capitalization, and spelling. Upon completion, students should be able to demonstrate competence in medical transcription. S10271
MED 140  Exam Room Procedures I  3 4 5  
Prerequisites: MED 150 & MED 272
This course provides instruction in clinical examining room procedures. Topics include asepsis, infection control, assisting with exams and treatment, patient education, preparation and administration of medications, EKG, vital signs, and medical emergencies. Upon completion, students should be able to demonstrate competence in exam room procedures. S11885

MED 150  Laboratory Procedures I  3 4 5  
Prerequisites: BIO 161 & MED 121
This course provides instruction in basic lab techniques used by the medical assistant. Topics include lab safety, quality control, collecting and processing specimens, performing selective tests, phlebotomy, screening and follow-up of test results, and OSHA/CLIA regulations. Upon completion, students should be able to perform basic lab tests/skills based on course topics. S10688

MED 260  MED Clinical Practicum  0 0 15 5  
Prerequisites: MED 110, MED 131, MED 134, MED 140, MED 150, MED 232 & OST 149
Corequisites: MED 262
This course provides the opportunity to apply clinical, laboratory, and administrative skills in a medical facility. Emphasis is placed on enhancing competence in clinical and administrative skills necessary for comprehensive patient care and strengthening professional communications and interactions. Upon completion, students should be able to function as an entry-level health care professional. Students must complete first three semesters prior to entering MED 260. S22977

MED 262  Clinical Perspectives  1 0 1  
Corequisites: MED 260
This course is designed to explore personal and occupational responsibilities of the practicing medical assistant. Emphasis is placed on problems encountered during externships and development of problem-solving skills. Upon completion, students should be able to demonstrate courteous and diplomatic behavior when solving problems in the medical facility. S13608

MED 270  Symptomatology  2 2 3  
Prerequisites: BIO 161
This course covers the study of disease symptoms and the appropriate actions taken by medical assistants in a medical facility in relation to these symptoms. Emphasis is placed on interviewing skills and appropriate triage, preparing patients for procedures, and screening test results. Upon completion, students should be able to recognize how certain symptoms relate to specific diseases, recognize emergency situations, and take appropriate actions. S11862

MED 272  Drug Therapy  3 0 3  
Prerequisites: MAT-110
This course focuses on major drug groups, including their side effects, interactions, methods of administration, and proper documentation. Emphasis is placed on the theory of drug administration. Upon completion, students should be able to identify, spell, recognize side effects of, and document the most commonly used medications in a physician's office. S16433

MARKETING & RETAILING (MKT)

MKT 120  Principles of Marketing  3 0 3  
This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making. S12573

MKT 125  Buying and Merchandising  3 0 3  
This course includes an analysis of the organization for buying-what, when and how to buy-and the principles of effective inventory and stock control. Topics include organization for buying, analysis of buyers' responsibilities, pricing, inventory control, planning, cost effectiveness, and vendor relationships. Upon completion, students should be able to demonstrate an understanding of the concepts covered through application. S12675

MKT 220  Advertising and Sales Promotion  3 0 3
Course Descriptions

This course covers the elements of advertising and sales promotion in the business environment. Topics include advertising and sales promotion appeals, selection of media, use of advertising and sales promotion as a marketing tool, and means of testing effectiveness. Upon completion, students should be able to demonstrate an understanding of the concepts covered through application. $12356

**MKT 222  Credit Procedures**

This course covers areas of collection that provide an understanding of the expertise needed to manage collection operations. Topics include principles and practices in the extension of credit, collection procedures, and laws pertaining to credit extension and collection. Upon completion, students should be able to demonstrate an understanding of the concepts covered. $12329

**THERAPEUTIC MASSAGE (MTH)**

MUS 114 Non-Western Music  3 0 3
This course provides a basic survey of the music of the non-Western world. Emphasis is placed on non-traditional instruments, sources, and performing practices. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of non-Western music. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S13659

MUS 131 Chorus I  0 2 1
This course provides an opportunity to gain experience singing in a chorus. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S14027

MUS 132 Chorus II  0 2 1
Prerequisites: MUS 131
This course provides a continuation of studies begun in MUS 131. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement. S13988

MUS 141 Ensemble I  0 2 1
This course provides an opportunity to perform in any combination of instrumental, vocal, or keyboard groups of two or more. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. S13366

MUS 142 Ensemble II  0 2 1
This course is a continuation of MUS 141. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. S13271

NET 110 Networking Concepts  2 2 3
This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols. S21056

NET 125 Networking Basics  1 4 3
This course introduces the networking field. Emphasis is placed on network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols. S21095

NET 126 Routing Basics  1 4 3
Prerequisites: NET 125
This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs. S21096

<td>Remote Access Networks</td>
<td>1</td>
<td>NET 226</td>
</tr>
<tr>
<td></td>
<td>This course covers how to build a remote access network to interconnect central sites to branch offices, home offices, and telecommuters. Topics include enabling on-demand/ permanent connections to the central site, scaling and troubleshooting remote access networks, and maximizing bandwidth utilization over remote links. Upon completion, students should be able to assemble and configure equipment, establish WAN connections, enable protocols/technologies, allow traffic between sites, and implement accessible access control. S21102</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
**NET 272  Multi-Layer Networks**  
Prerequisites: NET 226  
This course covers building campus networks using multi-layer switching technologies over a high-speed Ethernet. Topics include improving IP routing performance with multi-layer switching, implementing fault tolerance routing, and managing high bandwidth broadcast while controlling IP multi-cast access to networks. Upon completion, students should be able to install and configure multi-layer enterprise networks and determine the required router configurations to support new services and applications. S21103

**NET 273  Internetworking Support**  
Prerequisites: NET 226  
This course covers how to baseline and troubleshoot internetworking environments using routers and switches for multi-protocol client, host and servers. Topics include troubleshooting processes, routing and routed protocols, campus switching; and WAN troubleshooting. Upon completion, students should be able to troubleshoot Ethernet, Fast Ethernet, and Token Ring LANs; and Serial, Frame Relay, and ISDN connections. S21104

**NET 289  Networking Project**  
Corequisites: NET 226  
This course provides an opportunity to complete a significant networking project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation. S21106

**NETWORKING OPERATING SYSTEMS (NOS)**

**NOS 110  Operating System Concepts**  
Prerequisites: CIS 070  
This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is placed on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems. S20980

**NOS 111  Operating System - DOS**  
This course introduces operating system concepts for DOS operating systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating system functions at the support level in a DOS environment. S20981

**NOS 120  Linux/UNIX Single User**  
Prerequisites: NOS 110  
This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles. S20982

**NOS 130  Windows Single User**  
Prerequisites: NOS 110  
This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment. S20983

**NOS 149  Operating System - MVSTM**  
This course introduces operating systems concepts for MVSä operating systems. Topics include hardware management, file and memory management, system configuration/optimization, utilities, Job Control Language, and support functions. Upon completion, students should be able to perform operating system functions at the support level in an MVSä environment. S20984
NOS 211  AS/400 Maintenance And Operation  2 3 3
This course is designed to cover the fundamental AS/400 System operations, screens, utilities, and terminology. Topics include an introduction to the AS/400 operating system, security, backup and restore, handling spooled files, and using commands and menus to create and manipulate objects. Upon completion, students should be able to use utilities, create libraries, save and restore files, monitor and control jobs and queues, and know AS/400 operations. S20985

NOS 220  Linux/UNIX Administration I  2 2 3
Prerequisites: NOS 120
This course introduces the Linux file system, group administration, and system hardware controls. Topics include installation, creation and maintaining file systems, NIS client and DHCP client configuration, NFS, SMB/Samba, Configure X, Gnome, KDE, basic memory, processes, and security. Upon completion, students should be able to perform system administration tasks including installation, configuring and attaching a new Linux workstation to an existing network. S20986

NOS 221  Linux/UNIX Administration II  2 2 3
Prerequisites: NOS 220
This course includes skill-building in configuring common network services and security administration using Linux. Topics include server-side setup, configuration, basic administration of common networking services, and security administration using Linux. Upon completion, students should be able to setup a Linux server and configure common network services including security requirements. S20987

NOS 222  Linux/UNIX Administration III  2 2 3
Prerequisites: NOS 221
This course includes technical topics in preparing an enterprise Linux system for common uses. Topics include advanced study of hardware, installation, boot process, file system administration, software administration, user administration, system administration, kernel services, configuration, securing services, and troubleshooting. Upon completion, students should be able to administer an enterprise Linux system. S20988

NOS 230  Windows Administration I  2 2 3
Prerequisites: NOS 130
This course covers the installation and administration of a Windows Server network operating system. Topics include managing and maintaining physical and logical devices, access to resources, the server environment, managing users, computers, and groups, and Managing/Implementing Disaster Recovery. Upon completion, students should be able to manage and maintain a Windows Server environment. S20989

NOS 231  Windows Administration II  2 2 3
Prerequisites: NOS 230
This course covers implementing, managing, and maintaining a Windows Server network infrastructure. Topics include implementing, managing, and maintaining IP addressing, name resolution, network security, routing and remote access, and managing a network infrastructure. Upon completion, students should be able to manage and maintain a Windows Server environment. S20990

NOS 232  Windows Administration III  2 2 3
Prerequisites: NOS 231
This course covers implementing and administering security in a Windows Server network. Topics include implementing, managing, and trouble shooting security policies, patch management infrastructure, security for network communications, authentication, authorization, and PKI. Upon completion, students should be able to implement, manage, and maintain a Windows Server network infrastructure. S20991

NOS 240  Novell Administration I  2 2 3
Prerequisites: NOS 110
This course will introduce students to the Novell network operating system. Topics include installing and using NetWare, managing printing, storage space, implementing internet services, and managing security. Upon completion, students should have basic knowledge about implementing NetWare and using its management tools. S20992

NOS 244  Operating System - AS/400  2 2 3
This course includes operating systems concepts for AS/400 systems. Topics include hardware management, file and memory management, system configuration/optimization, utilities, Job Control Language, and support functions. Upon completion, students should be able to perform operating system functions in an AS/400 environment. S20993

Emphasis is placed on the concepts of fluid/electrolytes, metabolism, perfusion, mobility, stress/coping, violence, health-wellness-illness, professional behaviors, caring interventions, managing care, healthcare systems, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry level nursing care.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
**NUTRITION (NUT)**

**NUT 110  Nutrition**  3  0  3
This course covers basic principles of nutrition and their relationship to human health. Topics include meeting nutritional needs of healthy people, menu modification based on special dietary needs, food habits, and contemporary problems associated with food selection. Upon completion, students should be able to apply basic nutritional concepts as they relate to health and well-being. S16468

**OFFICE SYSTEMS TECHNOLOGY (OST)**

*Initial student placement in developmental courses is based on individual college placement testing policies and procedures. Students should begin developmental course work at the appropriate level indicated by that college’s placement test.*

**OST 80  Keyboarding Literacy**  1  2  2
This course is designed to develop elementary keyboarding skills. Emphasis is placed on mastery of the keyboard. Upon completion, students should be able to demonstrate basic proficiency in keyboarding. S12295

**OST 122  Office Computations**  1  2  2
This course introduces the keypad and the touch method using the electronic calculator. Topics include mathematical functions in business applications. Upon completion, students should be able to use the electronic calculator to solve a wide variety of problems commonly encountered in business. S13297

**OST 131  Keyboarding**  1  2  2
This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon completion, students should be able to key at an acceptable speed and accuracy level using the touch system. S13790

**OST 134  Text Entry & Formatting**  2  2  3
This course is designed to provide skills needed to increase speed, improve accuracy, and format documents. Topics include letters, memos, tables, and business reports. Upon completion, students should be able to produce documents and key timed writings at speeds commensurate with employability. S22142

**OST 136  Word Processing**  2  2  3
This course is designed to introduce word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment. S22144

**OST 141  Medical Terms I-Medical Office**  3  0  3
This course uses a language-structure approach to present the terminology and vocabulary that will be encountered in medical office settings. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in approximately one-half of the systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms. S11561

**OST 148  Medical Coding Billing & Insurance**  3  0  3
Prerequisites: MED 121
This course introduces fundamentals of medical coding, billing, and insurance. Emphasis is placed on the medical billing cycle to include third party payers, coding concepts, and form preparation. Upon completion, students should be able to explain the life cycle of and accurately complete a medical insurance claim. S22148

**OST 149  Medical Legal Issues**  3  0  3
This course introduces the complex legal, moral, and ethical issues involved in providing health-care services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior. S10679

**OST 155  Legal Terminology**  3  0  3
This course covers the terminology appropriate to the legal profession. Topics include legal research, court systems, litigation, civil and criminal law, probate, real and personal property, contracts and leases, domestic relations, equity, and corporations. Upon completion, students should be able to spell, pronounce, define, and accurately use legal terms. S22150
OST 156  Legal Office Procedures  2  2  3
Prerequisites: OST 134
This course covers legal office functions involved in the operation of a law office. Emphasis is placed on procedures in the law office involving the court system, legal research, litigation, probate, and real estate, personal injury, criminal, and civil law. Upon completion, students should be able to demonstrate a high level of competence in performing legal office duties. This course is a unique requirement of the Legal Office Systems concentration in the Office Systems Technology program. S14189

OST 164  Text Editing Applications  3 0 3
This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text. S12524

OST 181  Introduction to Office Systems  2  2  3
This course introduces the skills and abilities needed in today's office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today's offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context. S12232

OST 184  Records Management  2  2  3
This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system. S22114

OST 223  Administrative Office Transcript I  2  2  3
Prerequisites: OST 164; and OST 134 or OST 136
This course provides experience in transcribing documents. Emphasis is placed on appropriate formatting, advanced text editing skills, and transcription techniques. Upon completion, students should be able to transcribe office documents. S22154

OST 233  Office Publications Design  2  2  3
Prerequisites: OST 136
This course provides entry-level skills in using software with desktop publishing capabilities. Topics include principles of page layout, desktop publishing terminology and applications, and legal and ethical considerations of software use. Upon completion, students should be able to design and produce professional business documents and publications. S14246

OST 236  Advanced Word/Information Processing  2  2  3
Prerequisites: OST 136
This course develops proficiency in the utilization of advanced word/information processing functions. Emphasis is placed on advanced word processing features. Upon completion, students should be able to produce a variety of complex business documents. S22156

OST 243  Medical Office Simulation  2  2  3
Prerequisites: OST 148
This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections. S12315

OST 252  Legal Transcription I  2  2  3
Prerequisites: OST 134 or OST 136 and OST 155
This course provides experience in transcribing legal correspondence, forms, and documents. Emphasis is placed on developing listening skills to transcribe documents. Upon completion, students should be able to transcribe documents with accuracy. S22160

OST 284  Emerging Technologies  1 2 2
This course provides opportunities to explore emerging technologies. Emphasis is placed on identifying, researching, and presenting current technological topics for class consideration and discussion. Upon completion, students should be able to understand the importance of keeping abreast of technological changes that affect the office professional. S10158
OST 286  Professional Development  3  0  3
This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multicultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society. S16501

OST 289  Administrative Office Management  2  2  3
Prerequisites: OST 164 and either OST 134 or OST 136
This course is designed to be a capstone course for the office professional and provides a working knowledge of modern office procedures. Emphasis is placed on scheduling, telephone procedures, travel arrangements, event planning, office design, and ergonomics. Upon completion, students should be able to adapt in an office environment. S22162

**PHYSICAL EDUCATION (PED)**

PED 110  Fit and Well for Life  1  2  2
This course is designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health-related factors. Emphasis is placed on wellness through the study of nutrition, weight control, stress management, and consumer facts on exercise and fitness. Upon completion, students should be able to plan a personal, lifelong fitness program based on individual needs, abilities, and interests. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S11789

PED 111  Physical Fitness I  0  3  1
This course provides an individualized approach to physical fitness utilizing the five major components. Emphasis is placed on the scientific basis for setting up and engaging in personalized physical fitness programs. Upon completion, students should be able to set up and implement an individualized physical fitness program. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S11678

PED 121  Walk, Jog, Run  0  3  1
This course covers the basic concepts involved in safely and effectively improving cardiovascular fitness. Emphasis is placed on walking, jogging, or running as a means of achieving fitness. Upon completion, students should be able to understand and appreciate the benefits derived from these activities. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S11039

PED 128  Golf-Beginning  0  2  1
This course emphasizes the fundamentals of golf. Topics include the proper grips, stance, alignment, swings for the short and long game, putting, and the rules and etiquette of golf. Upon completion, students should be able to perform the basic golf shots and demonstrate a knowledge of the rules and etiquette of golf. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S11067

PED 129  Golf-Intermediate  0  2  1
Prerequisites: PED 128
This course covers the more advanced phases of golf. Emphasis is placed on refining the fundamental skills and learning more advanced phases of the games such as club selection, trouble shots, and course management. Upon completion, students should be able to demonstrate the knowledge and ability to play a recreational round of golf. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S11033

PED 130  Tennis-Beginning  0  2  1
This course emphasizes the fundamentals of tennis. Topics include basic strokes, rules, etiquette, and court play. Upon completion, students should be able to play recreational tennis. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S12680
PED 131  Tennis-Intermediate  0 2 1  
Prerequisites: PED 130  
This course emphasizes the refinement of playing skills. Topics include continuing the development of fundamentals, learning advanced serves, and strokes and pace and strategies in singles and doubles play. Upon completion, students should be able to play competitive tennis. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S12604

PED 137  Badminton  0 2 1  
This course covers the fundamentals of badminton. Emphasis is placed on the basics of serving, clears, drops, drives, smashes, and the rules and strategies of singles and doubles. Upon completion, students should be able to apply these skills in playing situations. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S12553

PED 138  Archery  0 2 1  
This course introduces basic archery safety and skills. Topics include proper techniques of stance, bracing, drawing, and releasing as well as terminology and scoring. Upon completion, students should be able to participate safely in target archery. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S12688

PED 139  Bowling-Beginning  0 2 1  
This course introduces the fundamentals of bowling. Emphasis is placed on ball selection, grips, stance, and delivery along with rules and etiquette. Upon completion, students should be able to participate in recreational bowling. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S12615

PED 142  Lifetime Sports  0 2 1  
This course is designed to give an overview of a variety of sports activities. Emphasis is placed on the skills and rules necessary to participate in a variety of lifetime sports. Upon completion, students should be able to demonstrate an awareness of the importance of participating in lifetime sports activities. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S10204

PED 143  Volleyball-Beginning  0 2 1  
This course covers the fundamentals of volleyball. Emphasis is placed on the basics of serving, passing, setting, spiking, blocking, and the rules and etiquette of volleyball. Upon completion, students should be able to participate in recreational volleyball. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S10153

PED 144  Volleyball-Intermediate  0 2 1  
Prerequisites: PED 143  
This course covers more advanced volleyball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to participate in competitive volleyball. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S10176

PED 145  Basketball-Beginning  0 2 1  
This course covers the fundamentals of basketball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational basketball. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S10128

PED 146  Basketball-Intermediate  0 2 1  
Prerequisites: PED 145  
This course covers more advanced basketball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play basketball at a competitive level. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S10225

PED 148  Softball  0 2 1  
This course introduces the fundamental skills and rules of softball. Emphasis is placed on proper techniques and strategies for playing softball. Upon completion, students should be able to participate in recreational softball. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S10188
PED 170  Backpacking  0 2 1
This course covers the proper techniques for establishing a campsite, navigating in the wilderness, and planning for an overnight trip. Topics include planning for meals, proper use of maps and compass, and packing and dressing for extended periods in the outdoors. Upon completion, students should be able to identify quality backpacking equipment, identify the principles of no-trace camping, and successfully complete a backpacking experience. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S13081

PED 171  Nature Hiking  0 2 1
This course provides instruction on how to equip and care for oneself on the trail. Topics include clothing, hygiene, trail ethics, and necessary equipment. Upon completion, students should be able to successfully participate in nature trail hikes. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S13031

PED 172  Outdoor Living  1 2 2
This course is designed to acquaint the beginning camper with outdoor skills. Topics include camping techniques such as cooking and preserving food, safety, and setting up camp. Upon completion, students should be able to set up camp sites in field experiences using proper procedures. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S13042

PED 186  Dancing for Fitness  0 2 1
This course is designed to develop movement and recreational dance skills, safety, fitness, coordination, and techniques used to teach various groups. Emphasis is placed on participation and practice with adapting dances for ages and ability levels. Upon completion, students should be able to demonstrate knowledge of fitness through social, folk, and square dance participation and instruction. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S10428

PED 210  Team Sports  0 3 1
This course introduces the fundamentals of popular American team sports. Emphasis is placed on rules, equipment, and motor skills used in various sports. Upon completion, students should be able to demonstrate knowledge of the sports covered. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. S12519

PHI 220  Western Philosophy I  3 0 3
Prerequisites: ENG 111
This course covers Western intellectual and philosophic thought from the early Greeks through the medievalists. Emphasis is placed on such figures as the pre-Socratics, Plato, Aristotle, Epicurus, Epictetus, Augustine, Suarez, Anselm, and Aquinas. Upon completion, students should be able to trace the development of leading ideas regarding reality, knowledge, reason, and faith. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S13045

PHI 221  Western Philosophy II  3 0 3
Prerequisites: ENG 111
This course covers Western intellectual and philosophic thought from post-medievalists through recent thinkers. Emphasis is placed on such figures as Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume, Kant, Hegel, Marx, Mill, and representatives of pragmatism, logical positivism, and existentialism. Upon completion, students should be able to trace the development of leading ideas concerning knowledge, reality, science, society, and the limits of reason. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S12988

PHI 240  Introduction to Ethics  3 0 3
Prerequisites: ENG 111
This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on utilitarianism, rule-based ethics, existentialism, relativism versus objectivism, and egoism. Upon completion, students should be able to apply various ethical theories to individual moral issues such as euthanasia, abortion, crime and punishment, and justice. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S11379
Initial student placement in developmental courses is based on individual college placement testing policies and procedures. Students should begin developmental course work at the appropriate level indicated by that college's placement test.

**PHY 80 Introduction to Physics**  
This course introduces applied principles of physics through hands-on activities and guided discussions. Emphasis is placed on basic graphical analysis, machines, friction, work, energy, power, hydraulics, heat transfer, and the gas laws. Upon completion, students should be able to use the basic language of physics and utilize problem-solving skills necessary for success in certificate-level physics courses. S10975

**PHY 110 Conceptual Physics**  
This course provides a conceptually-based exposure to the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. Upon completion, students should be able to describe examples and applications of the principles studied. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science. S12004

**PHY 110A Conceptual Physics Lab**  
Corequisites: PHY 110  
This course is a laboratory for PHY 110. Emphasis is placed on laboratory experiences that enhance materials presented in PHY 110. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in PHY 110. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science. S13531

**PHY 151 College Physics I**  
Prerequisites: MAT 161, MAT 171, or MAT 175  
Corequisites: MAT 272  
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science. S20924

**PHY 152 College Physics II**  
Prerequisites: PHY 151  
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science. S11553

**PHY 251 General Physics I**  
Prerequisites: MAT 271  
Corequisites: MAT 272  
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science. S12543

**PHY 252 General Physics II**  
Prerequisites: MAT 272 and PHY 251  
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Natural Science. S12686
## POLITICAL SCIENCE (POL)

### POL 110  Introduction to Political Science  3 0 3
This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S13770

### POL 120  American Government  3 0 3
This course is a study of the origins, development, structure, and functions of American national government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy formation. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S11509

### POL 210  Comparative Government  3 0 3
This course provides a cross-national perspective on the government and politics of contemporary nations such as Great Britain, France, Germany, and Russia. Topics include each country’s historical uniqueness, key institutions, attitudes and ideologies, patterns of interaction, and current political problems. Upon completion, students should be able to identify and compare various nations’ governmental structures, processes, ideologies, and capacity to resolve major problems. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S14332

### POL 220  International Relations  3 0 3
This course provides a study of the effects of ideologies, trade, armaments, and alliances on relations among nation-states. Emphasis is placed on regional and global cooperation and conflict, economic development, trade, non-governmental organizations, and international institutions such as the World Court and UN. Upon completion, students should be able to identify and discuss major international relationships, institutions, and problems. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S12877

## PSYCHOLOGY (PSY)

### PSY 115  Stress Management  2 0 2
This course covers stressors and techniques for stress management. Topics include anger, assertiveness, adaptation to change, conflict, coping skills, identification of stressors, time management, and the physiology of stress and burnout. Upon completion, students should be able to demonstrate an understanding of the effective management of stress. S11106

### PSY 118  Interpersonal Psychology  3 0 3
This course introduces the basic principles of psychology as they relate to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development. S11025

### PSY 150  General Psychology  3 0 3
This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S10777
PSY 183  Psychology of Addiction  3 0 3
This course covers historical and theoretical perspectives on addictive behavior and the genetic, familial, and sociocultural influences on addiction. Topics include addictions to eating, gambling, alcohol, drugs, relationships, work, and sex. Upon completion, students should be able to demonstrate a knowledge of the theories of addiction and the factors underlying addictive behaviors. S11416

PSY 237  Social Psychology  3 0 3
Prerequisites: PSY 150 or SOC 210
This course introduces the study of individual behavior within social contexts. Topics include affiliation, attitude formation and change, conformity, altruism, aggression, attribution, interpersonal attraction, and group behavior. Upon completion, students should be able to demonstrate an understanding of the basic principles of social influences on behavior. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S10878

PSY 239  Psychology of Personality  3 0 3
Prerequisites: PSY 150
This course covers major personality theories and personality research methods. Topics include psychoanalytic, behavioristic, social learning, cognitive, humanistic, and trait theories including supporting research. Upon completion, students should be able to compare and contrast traditional and contemporary approaches to the understanding of individual differences in human behavior. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S10904

PSY 241  Developmental Psychology  3 0 3
Prerequisites: PSY 150
This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S13114

PSY 255  Introduction to Exceptionality  3 0 3
Prerequisites: PSY 150
This course introduces the psychology of the exceptional person. Topics include theoretical perspectives, terminology, and interventions pertaining to various handicapping conditions as well as the resulting psychosocial adjustments. Upon completion, students should be able to demonstrate a basic understanding of the potentials and limitations of the exceptional person. S10456

PSY 256  Exceptional Children  3 0 3
Prerequisites: PSY 150
This course introduces major exceptionalities in children including mental, emotional, and physical variations; learning disabilities; and giftedness. Emphasis is placed on theoretical perspectives, identification methods, and intervention strategies. Upon completion, students should be able to demonstrate a general knowledge of the exceptionalities of children and recommended intervention techniques. S10464

PSY 281  Abnormal Psychology  3 0 3
Prerequisites: PSY 150
This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S12906
## READING (RED)

Initial student placement in developmental courses is based on individual college placement testing policies and procedures. Students should begin developmental course work at the appropriate level indicated by that college’s placement test.

## RELIGION (REL)

REL 111 Eastern Religions 3 0 3
This course introduces the major Asian religious traditions. Topics include Hinduism, Buddhism, Taoism, Confucianism, and Shinto. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S13358

REL 112 Western Religions 3 0 3
This course introduces the major western religious traditions. Topics include Zoroastrianism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S13280

REL 211 Introduction to Old Testament 3 0 3
This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S11707

REL 212 Introduction to New Testament 3 0 3
This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S11723

REL 221 Religion in America 3 0 3
This course is an examination of religious beliefs and practice in the United States. Emphasis is placed on mainstream religious traditions and non-traditional religious movements from the Colonial period to the present. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Humanities/Fine Arts. S11026

## SCIENCE (SCI)

Initial student placement in developmental courses is based on individual college placement testing policies and procedures. Students should begin developmental course work at the appropriate level indicated by that college’s placement test.

INFORMATION SYSTEMS SECURITY (SEC)

SEC 110  Security Concepts  3 0 3
This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy. S21053

SEC 150  Secure Communications  2 2 3
Prerequisites: SEC 110 and NET 110 or NET 125
This course provides an overview of current technologies used to provide secure transport of information across networks. Topics include data integrity through encryption, Virtual Private Networks, SSL, SSH, and IPSec. Upon completion, students should be able to implement secure data transmission technologies. S21054

SEC 160  Secure Administration I  2 2 3
Prerequisites: SEC 110 and NET 110 or NET 125
This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses. S21109

SEC 170  SOHO Security  2 2 3
Prerequisites:SEC 110
This course introduces security principles and topics related to the small office/home office networking environment. Topics include network topologies, network protocols, security issues, and best practices for SOHO environments. Upon completion, students should be able to design, setup, secure, and manage a small office/home office network. This course is restricted to the Information Systems Security/Operating Systems curriculum. S21110

SEC 210  Intrusion Detection  2 2 3
Prerequisites:SEC 160
This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products, traffic analysis, and planning and placement of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solution for networks and host based systems. S21111

SEC 240  Wireless Security  2 2 3
Prerequisites:SEC 110 and NET 175
This course introduces security principles and topics related to the wireless networking environment. Topics include network topologies, network protocols, security issues, and best practices for wireless environments. Upon completion, students should be able to design, setup, manage, and secure a wireless network. S21114

SOCIOLOGY (SOC)

SOC 210  Introduction to Sociology  3 0 3
This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S11919

SOC 213  Sociology of the Family  3 0 3
This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Social/Behavioral Sciences. S11798

**SHOOTING/HUNTING SPORTS MANAGEMENT (SSM)**

SSM 110  **Intro to Shooting Sports**  3 3 4

This course covers the theories and fundamentals of shooting sports. Topics include shotgun shooting sports, rifle shooting sports, and handgun shooting sports. Upon completion, students should be able to identify, explain and demonstrate the rules, regulations and equipment used in various shooting sports currently in the United States. S21862

SSM 111  **Gun Shop Management**  3 0 3

This course introduces managing a gun shop. Topics include handling firearms safely, federal and state firearms laws, purchasing new and used firearms, purchasing related firearms equipment, supplies and firearms security. Upon completion, students should be able to safely and legally start working a firearms counter. S21863

SSM 112  **Sports Hunting**  3 0 3

This course covers the theories and fundamentals of hunting in the world today. Topics include hunting in the United States, as well as the popular hunting spots around the world. Upon completion, students should be able to identify, explain and demonstrate the firearms and related equipment needed to hunt locally, nationally and in today's world. S21864

SSM 114  **Shooting Sports Mgmt**  3 6 5

This course introduces shooting and hunting sports management techniques. Topics include firearms safety, metal finishes, checkering, wood finishing, stock fit, shotgun chokes, basic firearms design, and custom firearms. Upon completion, students should be able to discuss sports management needs with customers and receive firearms for Gunsmithing work. S21865

**SOCIAL WORK (SWK)**

SWK 110  **Introduction to Social Work**  3 0 3

This course examines the historical development, values, orientation, and professional standards of social work and focuses on the terminology and broader systems of social welfare. Emphasis is placed on the various fields of practice including those agencies whose primary function is financial assistance, corrections, mental health, and protective services. Upon completion, students should be able to demonstrate an understanding of the knowledge, values, and skills of the social work professional. S11170

SWK 113  **Working With Diversity**  3 0 3

This course examines and promotes understanding, sensitivity, awareness, and knowledge of human diversity. Emphasis is placed on professional responsibilities, duties, and skills critical to multicultural human services practice. Upon completion, students should be able to integrate and expand knowledge, skills, and cultural awareness relevant to diverse populations. S11127

SWK 115  **Community Resources**  2 2 3

This course introduces community resources essential to social work practice. Emphasis is placed on awareness of and interaction with community service personnel. Upon completion, students should be able to identify resources and assess critical community needs. S21488

SWK 214  **Social Work Law**  3 0 3

Prerequisites: SWK 110

This course introduces the major provisions of social services law, current trends, legislative developments, and court procedures. Emphasis is placed on the interpretation of the laws and court decisions related to various social services populations. Upon completion, students should be able to interpret these laws and their implications for social services practice. S10306

SWK 220  **Social Work Issues in Client Services**  3 0 3

This course introduces the professional standards, values, and issues in social services. Topics include confidentiality, assessment of personal values, professional responsibilities, competencies, and ethics. Upon completion, students should be able to understand and discuss multiple ethical issues applicable to social work and apply various decision-making models to current issues. S11955

WEB 185  ColdFusion Programming  2  2  3
Prerequisites:  CIS 115
This course introduces ColdFusion Programming. Topics include installing a ColdFusion development environment, using CFQUERY tags to send and receive database information, creating and displaying a form, and other related topics. Upon completion, students should be able to design, code, test, and debug using a ColdFusion environment. S21308

WEB 186  XML Technology  2  2  3
Prerequisites:  CIS 115
This course is designed to introduce students to XML and related internet technologies. Topics include extendible style language (XSL), document object model (DOM), extendible stylesheet language transformation (XSLT), and simple object access protocol (SOAP). Upon completion, students should be able to create a complex XML document. S21309

WEB 187  Wireless/Internet Programming  2  2  3
Prerequisites:  CIS 115
This course introduces the Internet and Web development for portable wireless devices with a focus on practical business-related applications. Topics include WAP, WML, XHTML, XML, and wireless internet and mobile business practices and techniques. Upon completion, students should be able to develop and wirelessly enable websites and business applications for use on portable electronic devices. This course is restricted to the Information Systems Security/Security Hardware curriculum. S21310

WEB 210  Web Design  2  2  3
This course introduces intermediate to advanced web design techniques. Topics include customer expectations, advanced markup language, multimedia technologies, usability and accessibility practices, and techniques for the evaluation of web design. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web sites. S22061

WEB 211  Advanced Web Graphics  2  2  3
Prerequisites:  WEB 111
This course covers the advanced concepts related to the creation and manipulation of graphic images for web delivery. Topics include graphics acquisition, use of masks and channels, advanced special effects, advanced photo manipulation, and other related topics. Upon completion, students should be able to create, manipulate, and optimize web graphics with advanced techniques and maintain an online coursework portfolio. S22417

WEB 215  Advanced Markup and Scripting  2  2  3
Prerequisites:  WEB 115
This course covers advanced programming skills required to design Internet applications. Emphasis is placed on programming techniques required to support Internet applications. Upon completion, students should be able to design, code, debug, and document Internet-based programming solutions to various real-world problems using an appropriate programming language. S22062

WEB 220  Advanced Multimedia  2  2  3
Prerequisites:  WEB 120
This is the second of two courses covering Internet multimedia. Topics include use of advanced Internet multimedia applications. Upon completion, students should be able to create interactive Internet multimedia presentations. S21313

WEB 230  Implementing Web Servers  2  2  3
Prerequisites:  NET 110 or NET 125
This course covers web site and web server architecture. Topics include installation, configuration, administration, and security of web servers, services and sites. Upon completion, students should be able to effectively manage the web services deployment lifecycle according to industry standards. S21135

WEB 240  Internet Security  2  2  3
Prerequisites:  WEB 110 and CIS 110 or CIS 111 and SEC 110
This course covers security issues related to Internet services. Topics include the operating system and the Internet service security mechanisms. Upon completion, students should be able to implement security procedures for operating system level and server level alerts. S21131
### WEB 260  E-Commerce Infrastructure  
2 2 3  
**Prerequisites:** WEB 250  
This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, securing transactions, use and verification of credit cards, publishing of catalogs, documentation, and site administration. Upon completion, students should be able to setup a working e-commerce Internet web site. S21314

### WEB 285  Emerging Web Technologies  
2 2 3  
This course will explore, discuss, and research emerging technologies in the web arena. Emphasis is placed on exposure to up-and-coming technologies relating to the web, providing hands-on experience, and discussion of practical implications of these emerging fields. Upon completion, students should be able to articulate issues relating to these technologies. S21315

### WEB 289  Internet Technologies Project  
1 4 3  
**Prerequisites:** WEB 230 and WEB 250  
This course provides an opportunity to complete a significant Web technologies project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete an Internet project from the definition phase through implementation. S21136

### WELDING (WLD)

#### WLD 110  Cutting Processes  
1 3 2  
This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness. 10913

#### WLD 112  Basic Welding Processes  
1 3 2  
This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes. S10926

#### WLD 115  SMAW (Stick) Plate  
2 9 5  
This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes. S10891

#### WLD 116  SMAW (Stick) Plate/Pipe  
1 9 4  
**Prerequisites:** WLD 115  
This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions. S10935

#### WLD 121  GMAW (MIG) FCAW/Plate  
2 6 4  
This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions. S13138

#### WLD 131  GTAW (TIG) Plate  
2 6 4  
This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials. S10437

#### WLD 141  Symbols & Specifications  
2 2 3  
This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding. S11462
WLD 212 Inert Gas Welding  1 3 2
This course introduces inert gas-shielded welding methods (MIG/TIG). Topics include correct selection of consumable and non-consumable electrodes, equipment setup, safety, and welding techniques. Upon completion, students should be able to perform inert gas welding in flat, horizontal, and overhead positions. S16565

WLD 215 SMAW (Stick) Pipe  1 9 4
Prerequisites: WLD 115 or WLD 116
This course covers the knowledge and skills that apply to welding pipe. Topics include pipe positions, joint geometry, and preparation with emphasis placed on bead application, profile, and discontinuities. Upon completion, students should be able to perform SMAW welds to applicable codes on carbon steel pipe with prescribed electrodes in various positions. S10353
