This class will study two art mediums in order to give students a diverse and tactile art experience.

**Acrylic “Skins”**: What’s a skin? It’s a separate piece of acrylic without any backing or support. In this fun class we’re going to be using the “skins” to create a stained glass window effect and to create beautiful abstract mixed media textured paintings.

**Crazy Coil Critters**: Students will learn how to make and create critters out of clay coils and choose to have creations glazed or painted.

**Pinch Pot Creations**: Students will fashion many different creations out of a simple pinch pot. Choose to have creations glazed or paint your own!
