Jessica Brown
Class of 2016
A.A.S. in Accounting

2018-2019

A.A.S. IN ACCOUNTING

(A25100) The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the “language of business,” accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

Students may be required to take one or more Developmental courses as a result of pre-enrollment placement tests; therefore, the student may need more than the minimum number of semester hours listed for graduation.

Fall Semester 1			Lecture	Lab	Credit
ENG	111	Writing & Inquiry	3	0	3
BUS	110	Introduction to Business	3	0	3
ACC	120	Principles of Financial Accounting	3	2	4
